

MÖRDERSTEIN

THE ULTIMATE RAMMSTEIN TRIBUTE

<https://morderstein.co.uk>

Paying tribute to Rammstein's "Neue Deutsche Härte" sound, this six-piece industrial act from the post-industrial North, has taken the British tribute scene by storm, (and fire), one venue at a time!

From packed out shows throughout the British Isles, to playing at major tribute festivals, Mörderstein provides a remarkable rendition, just like the real thing, as attested by U.K. audiences everywhere.

"Just like having Rammstein in your living room"

Mörderstein's new line up emerged from the ashes in 2022, combining a fusion of high-energy performances from the early Rammstein catalogue with the operatic grandeur from their later shows.

Whether it's the colossal choral of anthems echoed by stadium audiences the world over or the fans B- side favourites, Mörderstein performs Rammstein with Germanic precision!

“It's not hard to see why Mörderstein are consistently labelled as the UK's ultimate tribute band.

Their attention to detail, showmanship, and commitment to bringing that amazing theatrical show, that Rammstein are widely renown for, to a smaller stage is unforgettable.

From crowd surfing in an inflatable rubber dinghy, the thunderous sound of the drums, the haunting guitars, mesmerising vocals and flawless theatrical performances that perfectly captures the sound of the 'real' deal to perfection. Their crowd interaction is second to none, and off stage they are a group that are phenomenal to work with - Mörderstein are a band you

NEED to see live.”

Nicole Butler

Bookings, Promotions, and Band Management.

The Hairy Dog · Unearthed Music · Blood, Sweat and Beers

Mörderstein offers a show like no one else!!! (well besides RAMMSTEIN). The professionalism shines through in their approach to every venue they attend and every audience they WOW.

Bringing along high-end industry standard equipment, full lighting rigs, pyrotechnics, full amp stacks and drums and even a treadmill?! (venue size permitting)

When you book Mörderstein you get Rammstein in your own space, selling out most venues on their way to become Europe's premier Tribute to the mighty Rammstein!!!

Lets make your venue and your patrons part of that journey too!!!

Bruno Stahl has a 10 + career as a graphic novelist. He was in the industrial project Helldunkel before joining Mörderstein." Brunos ability to channel the spirit of Till is uncanny! Powerful and Crazy!!!

Arron Clarke - Oliver Riedel Bass

Arron has been a professional bass player for over 15, plus years from the UK to European tours, playing in many bands and styles. Ollie is glad that I have brought that thundering driving Bass sound that make Rammstein a driving force unlike any other band. Also, I have not hurt myself sailing across the crowd in the dinghy yet

Töny Small - Christoph (Doom) Schneider/Drums

By day a mild mannered, suited and booted Head Engineer, by night, a cape crusader, drum virtuoso extraordinaire. Whether or not you are a metal head, jazz or funk fan, there's no denying Tony's capability in the saddle, especially when delivering Rammstein chops for the mighty Morderstein.

Ian Schofield - Christian "Flake" Lorenz/Keyboards

Ian is a veteran of the tribute scene playing all over in many bands, this one seems to fit his crazy attitude perfectly as he takes the roll of Flake almost too easily, maybe they were separated at birth?

Paul Howcroft - Paul Landers/Guitars

Paul has rocked the guitar over 30 years. Early influences include W.A.S.P, Alice Cooper & Kiss. Paul has been a keen Rammstein fan since the mid 90's. Paul and Rammstein's "Landers" not only share first names, both are challenged in height! Small perhaps but make up with a huge guitar sound!!

Paul Glover - Richard Kruspe/Guitars

Paul has been a professional musician for over 20 years, spanning touring bands, session work, and demonstrating and appearing all over the world for the many companies that endorse him. Richard would be proud of how closely Paul has captured the guitar tones and performance of Rammstein's
