***We require Ballet or Technique with all of our classes. This means all students will be taking a minimum of two classes per week. (except Beg. Move, pre-ballet, ballet/tap combo & technique). Ballet is a foundational dance genre where students learn terminology, correct body placement and how to engage their core. It helps dancers progress much faster in their classes when they incorporate ballet into their schedule. Ballet takes time to master which is difficult for many in today's "have it now" generation. Ballet is one of the most difficult genres to master which helps dancers learn that not everything can be mastered quickly. It teaches self-discipline, focus, proper body alignment, and builds a foundation for all types of dance!
