

The background of the image is a wall with a decorative concrete finish, featuring a mix of light beige, tan, and grey tones with visible brushstrokes and textures. In the lower-left corner, there is a small, dark-colored potted plant with thin, bare branches.

DECORATIVE CONCRETE SOLUTIONS

BY  **CONSTRUCTUCON**
CONSTRUCTION | DEVELOPMENTS | MAINTENANCE

Your Partner in Transformative Decorative Concrete Solutions

At Constructucon, we specialize in applying cutting-edge decorative concrete solutions to elevate spaces with style and functionality. As your trusted partner, we utilize the renowned Chryso range to bring your architectural visions to life, catering to both architects and homeowners seeking innovative design solutions.

Why Choose Constructucon for Your Decorative Concrete Needs?

Expert Application: With years of experience and expertise in decorative concrete application, Constructucon ensures flawless execution of the Chryso range's diverse techniques and products. Our skilled craftsmen deliver impeccable results that exceed expectations, whether it's a residential renovation or a commercial project.

Creative Versatility: Leveraging the Chryso range's extensive customization options, Constructucon offers limitless design possibilities to suit every taste and style preference. From intricate patterns to bold colour schemes, we tailor our solutions to reflect your unique vision, enhancing the aesthetic appeal of any space.

Reliability and Durability: Backed by Chryso's reputation for quality and performance, Constructucon's decorative concrete solutions are engineered for durability and longevity. Our surfaces withstand the rigors of daily use and environmental elements, ensuring years of enjoyment and minimal maintenance for homeowners and architects alike.

Customer-Centric Approach: At Constructucon, customer satisfaction is our top priority. We collaborate closely with architects and homeowners throughout the project, listening to their needs and preferences to deliver personalized solutions that exceed their expectations. Our dedication to excellence ensures a seamless and enjoyable experience from concept to completion.

Other Services offered

Contact details

Sanded effect concrete

Give your concrete
a sanded texture
or a polished finish

Concrete with a non-slip, uniform and fine sanded texture which comes in a range of colours. It can be used to create monolithic horizontal surfaces which has an appearance and feel, suitable for both urban and residential projects.

Outdoors

Urban developments

Pavements
Commercial squares

Residential developments

Patios, pool decks
and pathways

BENEFITS

- *Contemporary look*
- *Non-slip surface*
- *Continuous seamless-surface*

GRANICRETE

Transform a concrete slab into a continuous seamless sanded or polished surface.

DECO WASH PICO

Micro-surface retarder or a homogenous sanded effect.

Exposed aggregate concrete

Outdoors

Urban developments

Pavements, walkways
carparks and footways

Residential developments

Driveways and patios

Reveal aggregates from concrete to enhance outdoor areas

Exposed aggregate concrete imparts a warm, natural appearance to horizontal surfaces. Different placement techniques allow for adjustments in the concrete's texture and look. By altering aggregate colours, cement paste, or adjusting the surface retarder's etch depth, one can create intricate, long-lasting, and visually appealing finishes.

BENEFITS

- *Different etch depths*
- *Wide range of colours and surface finishes*
- *Easy maintenance*
- *Non-slip surface*

DECO LAV P Range

Wide range of surface retarders
with positive etch depths.

DECO LAV N RANGE

Wide range of surface retarders
with negative etch depths.

Luminescent concrete

In/Outdoors

Urban developments

Pavements, cycle paths and roundabouts

Residential developments

Walkways, patios, pool decks, floors and walls

Enhance your architectural creations in the dark

LuminTech® technology makes decorative horizontal surfaces glow brightly in the dark. It takes the form of coloured inserts or particles that are incorporated into the concrete.

BENEFITS

- *Luminescence for over 10 hours*
- *Excellent abrasion resistance*
- *Particles made from recycled materials and mineral pigments*

LUMIN P+

Luminescent powder & particles available in JADE & AGATE day/night colours

Pervious concrete

**Choose environmentally
friendly solutions**

**Manage rainwater and prevent surface
flooding. Porous yet resistant, it's
permeability is incomparable. It can be
coloured and fluidified at the placement stage.**

Outdoors

Urban developments

Roads, walkways
carparks and footways

Residential developments

Driveway, access road,
walkways and gardens

EASYDRAIN

Technology that fluidifies the
pervious concrete and facilitates
its placement. Aesthetic surface
appearance.

Coloured concrete

In/Outdoors

Applicable for integral or surface colouring of all types of concrete

Dare to be colourful

Integral or surface colouring of concrete provides a mineral aspect which is rich in colours, while offering excellent durability. We can meet any colour requirements with its comprehensive range of mineral pigments and its on-demand colour creation service.

BENEFITS

- *Custom shades*
- *Colour close to local materials*
- *A custom colouring laboratory at your service*

COLOUR C RANGE

- Various shades available
- Expertise in colour blending
- UV ray resistance

Textured finish

Turn old concrete into a new textured surface

The application of a textured coating over an existing concrete is an aesthetic, simple and durable solution to renovate or repair ageing horizontal surfaces. Orange peel, knock-down or broomed, it gives concrete a new lease of life

BENEFITS

- *Excellent mechanical resistance*
- *Anti-slip coating for horizontal surfaces*
- *Thin*

In/Outdoors

Urban developments

Walkways
Pavements

Residential developments

Patios, pool decks, paths
walls, floors &
stairs

TEXTURE TOP

Milimetric coating (2mm) based on a hydraulic binder, mineral filler and admixture.

Béton Ciré

Imagine contemporary and durable surfaces

Applicable on floors, walls, furniture
and worktops, decorative millimetric
Béton Ciré offers a whole
host of applications for the hotel,
residential and tertiary sectors

In/Outdoors

Residential developments

Entrance halls, wet rooms
lounge areas, furniture,
walls and floor

Tertiary developments

Hotels & restaurants

LIMESTONE

PEBBLE

COBBLE

SANDSTONE

TERRACOTTA

DUNE

ASH

SILICA

BENEFITS

- *Durable and resistant*
- *Easy to maintain*
- *Wide range of colours*

Concrete protection and durability

Protect and embellish concrete durability

Protective products should be applied to preserve decorative concrete and guarantee structural durability. These products protect concrete from aggressions that alter their aesthetics and durability (traffic, greasy stains, micro-organisms, UV rays, etc.).

SEAL FINISOL

Water based concrete sealer that is moisture tolerant and dries clear. Particularly to protect exposed aggregate concrete.

COTE 441

Clear protective and decorative polyurethane enamel coating for concrete.

FINISOL BRUT

Film forming with a rough or exposed concrete appearance designed to protect aesthetic concrete against water, oil and dust.

FINISOL PERLE

Film forming finishes with a glossy appearance designed to protect aesthetic concrete from stains, prevents micro-organism development and atmospheric attacks.

Other services offered

We offer a wide selection of services:

Residential, commercial and industrial construction

Renovations, alterations and additions

Polished concrete counter tops

Epoxy flooring

Roofing

Painting

Tiling

Concrete slabs & stairs

Kitchen cabinets

Plumbing

Electrical

**We are fully insured and registered
with the NHBRC for peace of mind**
