

Welcome!

Thank you for your interest in becoming part of Communities That Care of Marinette and Menominee Counties. We are excited to have you on board!

Following are the next steps to take to become an active member of CTC:

Step 1: Review the information included in the Welcome Packet and Pre-Orientation Video

Step 2: Choose a potential work group or groups to attend based on your interests, skills and experience.

Step 3: Contact the CTC Coordinators to obtain the meeting dates of the work group(s) you have selected. Sign up to attend a new member orientation to learn about the CTC process.

CTC Coordinators - Karianne Lesperance and Cindy Grabowski

What is CTC?

- Communities That Care is a system that brings together community members to create a healthier environment for kids and teens to grow up in.
- It uses data from OUR community to identify risk factors for dangerous behavior that OUR kids and teens are dealing with.
- It helps OUR community develop a focused, long-range action plan for building on existing resources and filling any gaps with new resources.
- It helps OUR community put programs in place to address the risk factors for OUR kids and teens.
- It helps to define clear, measurable outcomes that are tracked over time to show progress and accountability.
- The Communities That Care system is research-based and proven to enhance communities.

Our Vision

Our vision is to provide a community in which all area youth feel safe and connected;

a community in which youth are empowered to be healthy, resilient, and compassionate members of society;

and a community in which young people positively contribute and impact future generations.

Our Priorities

In order to determine where CTC's efforts should be focused, the community was asked to vote and over 1100 community members submitted their ballot to determine which protective or risk factors they believed were critical. Although all of the noted risk and protective factors are important, it is necessary to narrow the scope in order to have the greatest impact. Based on the community vote, below are the risk and protective factors that our CTC will be working on.

COMMUNITY INVOLVEMENT FOR PRO-SOCIAL BEHAVIOR

Positive opportunities and participation for youth equals less poor behavior choices.

POOR FAMILY MANAGEMENT

Lack of clear behavior expectations, parent failure to supervise and monitor children, and inconsistent or severe and harsh punishment.

FAVORABLE ATTITUDES TOWARD DRUG USE

If youth believe that families and/or our community accepts drug and excessive alcohol use as normal and okay, they are more likely to start using these substances at an early age

Our Action Plan

**WORK IN
PROGRESS**

COMING SOON!
