## Our Workgroups

The Data Workgroup has been actively preparing for upcoming presentations to key stakeholders in the community. The data gathered and reviewed from the various surveys is extensive. We have been utilizing our time, consolidating the information into usable pieces of information, and making sure it is presented to the correct target audience.

The funding workgroup has been working hard on the Youth Fishing Derby Fundraiser. These activities include looking for donations, raffle prizes, food donations, registration, fish stocking, and much more. Everything is on track for another successful year, we are just hoping for good weather! This family-friendly fundraiser will help implement activities and more from the CTC action plan written to the DFC.

Members will be educating the Marinette City Council on the importance of adding vaping products to smoke free parks resolution. *A local tobacco shop wants city to change ordinance so they can sell CBD products for vaping purposes.* They are also going to be tackling the following Action Plan Activities: Courageous Persuaders, Underage Drinking Town Hall, Youth Summit, updating tobacco policies in 3 school districts and Catch My Breath Curriculum to Four Additional Schools.

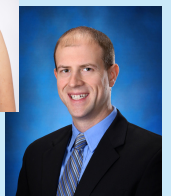

Outreach and Maintenance most recently been working on advertising for the Youth Fishing Derby. This group continues to make Facebook posts and updates to the website.

## Our Executive Committee

The Executive Committee is looking at the revised bylaws for approval by the coalition, ensuring our strategies written into our DFC plan are being completed and are on time, and that we continue to progress towards our goals and objectives of the grant.
