ABOUT US

→ Who We Are

We are a veteran-led 501(c)(3) nonprofit organization advocating for survivors of domestic violence, and violence prevention for youth in the Antelope Valley.

→ Mission

Our mission is to transform the Antelope Valley into a community where hope replaces fear and silence—ensuring every youth has the opportunity to live free from domestic violence.

→ Our Purpose

Three Hart Connection is an organization attacking domestic violence by breaking the cycles of violence, poverty, and the school-to-prison pipeline. Offering a culturally centered and affirming approach to benefit the entire family, we provide DV prevention and intervention education to disrupt the next generation of victims and perpetrators. Specifically, our services include Violence Prevention, Youth Development, Survivor Empowerment, Resource Support, Life Skills, and Scholarship Opportunities.

OUR PROGRAMS

Adult Thrive Programs

Our Adult Thrive programs support survivors and community members through trauma-informed healing, education, and leadership development. Participants build confidence, safety, and independence through advocacy training, peer support, and practical life skills that strengthen stability, agency, and long-term pathways forward.

Youth Thrive Programs

Our Youth Thrive programs equip young people with the knowledge, confidence, and skills needed to navigate relationships, education, and life safely. Through internships, mentorship and prevention-centered programming, youth learn boundaries, communication, and leadership while building protective factors that support healthy development and future opportunity.

AV THRIVERS GALA

The AV Thriver's Gala is a black-tie fundraising event held during Domestic Violence Awareness Month as a tribute to those we have lost and a recognition of the strength of survivors who have become Thrivers. As our largest fundraiser of the year, proceeds provide direct support to victims and survivors of domestic violence, while also funding critical education and prevention efforts addressing domestic violence, teen dating violence, and military sexual trauma.
