YOUR SUPPORT MATTERS

Platinum Rating from the GuideStar Foundation

93c

93 cents of every dollar spent directly on veterans

RESURRECT A HERO.

STRENGTHEN A NATION.

Every veteran's journey is different.

Together, we can ensure no Guardian walks it alone.

Join us in supporting veterans and their families through donations, outreach, education, and collaboration.

RESURRECTING LIVES

FOUNDATION

RESURRECT A HERO - STRENGTHEN A NATION

GUARDING OUR GUARDIANS

Honor Our Guardians.
Support Their Future.

They fought for us.
We fight for them.

Call to Action, uniting our nation to secure a future for our Guardians.

OUR MISSION

Resurrecting Lives Foundation is a national nonprofit organization focused on raising awareness of the consequences of untreated brain injuries while advocating for services preventing suicides among veterans, allowing a path to a future for those veterans struggling with the signature wound of the Global War on the Terror (GWOT), Traumatic Brain Injuries (TBI), and Post-Traumatic Stress Disorder (PTSD).

OUR VISION

The foundation connects veterans and their families to resources within their communities to provide health care, education, and employment, thereby strengthening the veterans' ties to the community and strengthening the community in return.

The foundation connects veterans and their families to resources within their communities to provide health care, education and employment, thereby strengthening the veterans' ties to the community and strengthening the community in return.

Chrisanne Gordon, MD

FOUNDER / EXECUTIVE DIRECTOR

Dr. Chrisanne Gordon is a physician, author, filmmaker and founder of the Resurrecting Lives Foundation. With over three decades of medical leadership, she has become a primary voice in military medicine and legislative reform.

Dr. Gordon leverages media to advocate for veteran suicide prevention and community-integrated healthcare, ensuring a path to employment and education for those impacted by TBI. As both a board-certified physician and a survivor of a TBI herself, she brings a unique dual perspective to this issue.
