①

my dear beloved brothers, doctors and psychiatrists, know that mankind is always searching for those things and those people to assist them in healing their ailments, sicknesses and diseases.

and as you all know every sickness has a cure as the

prophet Muhammad said: **لِكُلِّ دَاءٍ دَوَاءٌ فَإِذَا أُصِيبَ تَوَّاهَ**

**الدَّاءِ بَرَأَ بِإِذْنِ اللَّهِ تَرَوْجِلُ**

"Every sickness has a cure and when the proper cure is applied to the disease, it ends it, Allah willing"

And the prophet said:

**إِنَّ اللَّهَ تَرَوْجِلُ لَمْ يَنْزِلْ دَاءٌ إِلَّا أَنْزَلَ لَهُ شِفَاءً عَلَيْهِ مِنْ كَلِمَةٍ وَبَرَاءَةٍ مِنْ بَرَاءَةٍ**

"Allah has not sent down a disease except that he also sent down its cure, whoever knows its cure - knows it and whoever is unaware of its cure is unaware of it."

Salutations and congratulations for the doctors, psychiatrists and intellectuals possessing knowledge of medicine and possessing knowledge of how to aid and assist sick people from their physical ailments and diseases.

You all know that diseases and sicknesses are not only physical, some are mental and some are even spiritual. Some of these sicknesses and diseases affect the most important organs of the body, and know that the spiritual sickness is the most detrimental to the physical and mental aspect. Be reminded

that the body possesses an organ which if it is healthy, then the whole body is healthy, but if it is corrupt then the whole body is corrupt, verily it is the heart. The heart is the storehouse for blood, veins, arteriens, ventricals, atriums as you all know, the heart is constantly pumping blood throughout the body to the other organs. Also be informed that the heart is also the storehouse for the muslims beliefs, if the muslims beliefs are correct then they will be manifested in his statements and actions. And be informed O my beloved physicians that there are diseases which affect the heart, diseases which have no medicine except for what Allah legislated and told us about in the Quran and Sunnah. These are diseases of doubt, error, lust and desires. So in order for us to cure those diseases Allah the mosthigh has sent us a cure!

يَا أَيُّهَا النَّاسُ قَدْ جَاءَكُمْ مِنَ اللَّهِ نُورٌ وَكِتَابٌ مُبِينٌ  
 صُورٌ وَفُتْرٌ وَرَحْمَةٌ مِنَ اللَّهِ الْعَظِيمِ

"O mankind! There has come to you a good advice from your lord (The Quran) as a healing for that in the hearts and as a guidance and mercy for the believers"

So the Quran contains a cure for all diseases within the chest such as doubts, hypocrisy, disbelief, innovations and misguidance. And from Allah's

3

mercy upon us is that he specified a blessed month in which he loves and desires us to recite constantly and continuously his noble Quran, and gave us this blessed month of Ramadan as a month for us to worship Allah alone, by fasting and abstaining from food, drink, and all things which Allah prohibited us from so as to forgive us and cure us of our sicknesses. Allah, out of his love and mercy for us provided us with a means to be forgiven and a means for us to be united and cured and healed from physical and spiritual impurities. By fasting, one worships Allah alone without anyone else knowing, this is why it is from the best actions of worship because it is free from showing off. Fasting also strengthens the ~~willpower~~ <sup>willpower</sup> and mental ability and patience of the believer as well as purifying one's body from impurities. Ramadan is the month of Islamic unity, whereas all the Muslims throughout the world unite upon worshipping one lord by fasting at one time regardless of social status, the strong ones, the weak ones, the rich ones, the poor ones all of them manifest the true obedience to Allah and all the diseases and feelings of arrogance, pride, injustice and inequality are eliminated.

STOP and khutbah

④

Allah also legislated 'Itikaaf' as a cure to strengthen ones heart by secluding oneself to the masjid and freeing ones heart of his worldly affairs <sup>and worries</sup> and seeking Allah's forgiveness and repentance in privacy.

Allah has given us <sup>three</sup> cures for our previous sins to be erased, fasting Ramadan, praying Ramadan and praying/worshipping Allah upon the night of decree, if they are done seeking Allah's reward <sup>only</sup> then our sins will be forgiven, a cure for disobedience throughout the year. And as

a cure for the ones who may have doubts of Allah's mercy, Allah has given us one night in which ~~the~~ worship in it is better than 83 years, better than an entire lifetime.

Then at the end of Ramadan Allah has given us a cure, O doctors, to purify our fasting from shortcomings and deficiencies. Zakatul Fitr given to thank Allah for allowing us to complete our fasting, given by every male/female muslim of every age to the poor and needy, 5-7 pounds of rice, barley, dates, raisins or dry food items to assist and benefit the needy muslims. Zakatul Fitr must be given before the

eid prayer. So after being cured from our sins and purifying our fasting from shortcomings, we thank Allah by observing the eid festival and congratulating each other for the blessings Allah has bestowed upon us during the previous month.

⑤

know my beloved brothers and physicians that the cure for bad deeds is to follow them up with good deeds and to continue upon goodness throughout the year, and the best of good deeds is following Allah and His messengers commandments and staying away from their prohibitions throughout the year, not just in Ramadan. And know that Allah is always pleased with those who obey him - irregardless of the month - and Allah is displeased and angry with the ones who disobey him irrespective of the month of disobedience. So in closing, my beloved brothers let us be cured from our own diseases of doubts, desires, and sins by following the Quran and Sunnah <sup>(acting upon it, and calling to it)</sup> which will in turn enable us to assist, recommend and give advice to others which may lead to their being cured from their physical, mental and spiritual diseases, ailments and sicknesses, eventually being cured of the greatest sickness which is disbelief ~~in which ones body, mind and soul are obedient to their creator and hence~~ <sup>and not in submission</sup> ~~experience many sicknesses,~~ and embrace the greatest cure for mankind which is Islam, ~~based upon~~ ~~completely~~ completely submitting to the creator of All the worlds.
