## Course Guidelines

### Conditions of Enrollment

#### PLEASE READ CAREFULLY

#### **English as a Second Language**

Students will need a good standard of reading, writing and speaking English to be able to study with us.

#### **Age**

Please note that in order to study with us, you must be 18 years old, or have a parental/guardian written approval - There is no upper age limit.

#### **Your Operating System and Browser**

We use the Zoom Software to host on-line classes.

Before you enroll for the first time check the System Requirements for Zoom, on the Zoom website:

<https://support.zoom.us/hc/en-us/articles/201362023-System-Requirements-for-PC-Mac-andLinux>

to make sure your system will work with Zoom. Our school will not refund fees to students who cannot join the course because their system does not support Zoom.

#### **Joining the Class**

You can join the class using a laptop, either Windows or Mac. We advise you not to join using a phone – the sessions will include slide presentations and the material will be difficult to see on a very small screen.

You will need the following:

- Good internet access
- Webcam
- A good quality built-in microphone or external head-set

Our school will do its best to ensure the sound quality is consistently good, however this is partly dependent on the quality of your broadband connection and audio.

When you first enroll, you will be sent an email confirming your enrollment and containing instructions for joining and participating in the class.

#### **On-line etiquette**

We want everyone to enjoy the experience of participating in the online classes. To make the most of it, we ask you to take note of the following:

- When attending the class, please be fully present and with your camera switched on. As in a real classroom, activities such as moving around the room or checking your phone while the class is in progress can be distracting for the other participants.
- We appreciate that from time to time you may need to join a class when you are away from home. The same idea applies however – it can be disruptive for others if you are attempting to tune in via mobile phone on the move, or from a café or other public space, or if you arrive late.
- Remember that everyone can see you – and your backdrop!

- A laptop or PC is preferable, although it is possible to use a tablet. Using a mobile phone is not desirable, not least because it will be extremely difficult for you to see the slides and charts being presented in class.
- Please ensure you click the link to enter the classroom 10 minutes before the class is due to start. This gives you time to settle down, adjust your camera and greet the others in the room before the class begins. The tutor will start the class on time, so you risk missing part of the class if you join late.
- Please let the tutor know in advance if you know you are unable to attend a class.
- The online classes are not recorded. However, you can catch up on missed material by reading the written material.

### **Course Material (Website)**

Digital

### **Theta Astrology Copyright – All Rights Reserved**

The Theta Astrology Copyright material is made available to you on the understanding that it is for your own personal learning purposes only. You may install the material on your hard drive and you may print it out for your own use, but you may not reproduce or republish or pass on the material or any part of it to anybody else without

### **Homework**

In order to maximize the time available in each online session, your tutors will usually ask you to read

certain articles from the course material and prepare a small amount of work for the following session.

Each online student is invited to participate actively in the sessions and the tutors will ensure that you are given the time and opportunity to do this.

At the end of each module, if you wish to gain the 20 module credits, you will usually also need to complete a piece of written homework to be handed in after the end of term – see the section ‘Working towards the Certificate and Diploma’ below.

### **Charts**

Your tutor may use notable or notorious people of history as well as historical events. The use of such material is not to be perceived as any sort of support to the moral values, practices, identifications, prejudices, attitudes, lack of inclusivity or deeds of the past or present, of any culture. The tutor may also employ technical astrological terms and pronouns that are in general and accepted usage within the astrological tradition or system practiced by the tutor. These clarification are made in full cognizance of contemporary race, gender, cultural and age sensitivities. This will be reflected in the selection, presentation and tone of the course or the seminar material. If a selected material as detailed above is relevant for the sessions is not respected, the student may be required to leave, in order to avoid the disruption of the learning experience for other students. If this happens, the student in question will not be eligible for a refund of that course/ seminar.

It is usual for tutors to display the natal charts of students when students are discussing parts of their chart - these charts will be displayed without the birth data. However, if you do not wish your chart to be shared with the class, please inform your tutor or our office before the classes start.

### **Working on Your Own Chart**

Throughout the Certificate and Diploma classes, you will often be required to work on your own birth chart. Partly this is for practical reasons – whenever you learn a new technique or idea,

the process of applying it to your own chart can help you engage with the technique or idea more fully. As every student soon discovers, astrology comes alive when you really see it working in your own chart.

### **Keeping an Astrological Journal**

Remember: your journal is your own private space in which to record your thoughts and responses to the material you are studying.

### **Privacy and Protecting your Confidentiality**

Your tutor will respect your privacy at all times, and any work you submit will be treated as strictly confidential between yourself and your tutor. The only exception to this rule is when the Head Tutor occasionally requests examples of the tutor's work for purposes of monitoring tuition standards. In such cases, any communication between yourself and your tutor will be kept confidential by the Head Tutor.

Furthermore, Faculty tutors are under an obligation to keep all tuition records and material in a safe place, and all such material held by your tutor will be destroyed three months after each level of study has been completed or after three years if a level is not completed.

### **Additional Reading Resources (Facebook Group)**

Books - The Reading List for each module suggests background reading for your course and we would strongly encourage you to do as much additional reading around each subject as time allows, since you will benefit from being able to draw on a wide range of material.

### **Taking your time**

Studying astrology can evoke changes in how we see life and experience the world and in our lives and for this reason it is important that students take their time with their studies and view study as a journey rather than a destination where we recognize that there are times where there is greater studying activity and other times of greater reflection or adjustment, both of which are of immense value. It is important that students take responsibility for managing themselves through this process.
