Family Empowerment Scholarship for Unique Abilities Purchasing Guide

INTRODUCTION

Florida state law now requires Scholarship Funding Organizations (SFOs) to prepare a purchasing guide for scholarship students' guardians and update this guide at least annually.

PURCHASING POLICIES

As per Florida statute s. 1002.394, Family Empowerment Scholarship for Unique Abilities (FES-UA) scholarship funds must be used to meet the educational needs of an eligible student. Using a student's scholarship funds for other purposes is a crime. For example, purchasing a product with scholarship funds, returning that product, and then spending the returned funds on items that do not meet the educational needs of the scholarship student is illegal. Please contact your Scholarship Funding Organization (SFO) if you have questions about the legality of a financial transaction using scholarship funds prior to engaging in this transaction.

SFOs may require guardians to use an online platform for purchases provided their choice of curriculum or academic programs is not limited. SFOs may also reimburse guardians for their purchase of eligible products or services that meet their student's educational needs. Please verify with your SFO that a purchase is eligible for reimbursement before making the purchase. If a guardian purchases a product identical to one offered by an SFO's online platform for a lower price, the SFO is required by law to reimburse the guardian for the cost of the purchase.

Per Florida Statute s. 1000.21(5), "Parent" means either or both parents of a student, any guardian of a student, any person in a parental relationship to a student, or any person exercising supervisory authority over a student in place of the parent. For the purposes of the Purchasing Guide, the term "Guardian" will be used to include all eligible parents and guardians above who manage an ESA account for an eligible FES-UA student.

GENERAL PURCHASING PROVISIONS

Product Safety: For safety reasons, SFOs review manufacturers' recommended minimum age use when determining if an education product is appropriate for a student.

Monetary Benefit: A family may not receive a payment, refund, or rebate of scholarship funds from a vendor.

Duplicate Billing: Products or services paid for by another agency (e.g., health insurance, Healthcare Savings Accounts (HSAs), or a School Readiness program) may not be submitted for reimbursement.

Medical Services: With the exception of those Specialized Services outlined in FES-UA law (including licensed ABA, Speech, Occupational, or Physical therapies), medical services (including doctors' visits, examinations, and medical devices) are not eligible expenses.

Out-of-State Service Providers: With the exception of credentialed providers whose services may be delivered virtually (e.g., tutors, licensed therapists), services must be delivered in Florida.

Purchase Location: Purchases made online through the direct buying platform must be shipped to the Florida residential address associated with the student's scholarship account.

Prorating Payments for Multi-User Items: Other family members often use products purchased with scholarship funds. Consequently, funding for these multi-user items is prorated to only cover the scholarship student's cost.

Purchasing Guide 2023-24

Public Schools Equivalency: Whether a product or service is available in public schools helps SFOs determine whether an item may be purchased with scholarship funds.

- The Pre-Authorization process may be used to determine the eligibility of a purchase prior to spending funds.
- In some categories, Pre-Authorization is required.

A scholarship recipient may take courses, participate in programming (including after school, extracurricular, supplemental, or summer school programs) or receive services from a public school (including charter schools and the Florida Virtual School), if the student contracts for classes/services on a private pay basis.

The guardian can pay for services and request reimbursement, or the school district can choose to be paid directly as a provider.

There is no requirement for public district or charter schools, or school districts, to contract for services with a scholarship participant or to set up an account for payment as a provider. Participation is optional for the public schools and/or districts.

A student who receives contracted services under this paragraph is not considered enrolled in a public school for scholarship eligibility purposes. However, if the district reports the student for any FTE funding or other state funding, the student will be ineligible for the Family Empowerment Scholarship.
