Connecting to Performance in Hotel Management

Dear Steve,

As a hotel broker and Third-Party Management consultant, obtaining my certification as a Hotel Valuation Software Consultant has greatly increased my credibility in the industry. This qualification adds a new layer of expertise that I can leverage to build my business. Further, it helps me to approach my industry colleagues with much greater confidence.

I'm extremely grateful for the personal attention that you provided in helping me to grasp the concepts behind the software as well as explaining how to accurately execute all of the models. I truly feel that my career in the hotel industry is positively impacted with this new set of tools in my toolbox.

Thank you- Steve!
