

CITY OF REFUGE

Empowering the will to be *transformed*.

I am

a caterer.

CITY OF REFUGE

Empowering the will to be transformed.

We are not a charity.

We are a unique place, built on our faith in the human spirit to triumph over hopelessness, addiction, oppression, pessimism, and being adrift in the world.

We do the hard work - right here in 30314 – of providing a place that's safe, encouraging, rehabilitative, nurturing, educating, training, and loving so that our fellow citizens in need can realize the true value they have to offer the world.

We showcase our work through the people who transform themselves - here. We give them the will, the confidence, and the voice to declare,

I am *a realized version of the person I want to be.*

I am *providing for myself and the people who depend on me.*

I am *proud of who I've become.*

We celebrate the state of grace that exists on the other side of transformation. This includes those whom we rely on for the time, treasure, and talent we need to deliver on our mission. For they too, are transformed through the work we do.

Together, **We are** City of Refuge
