One of the most awaited events at the CEI conference every year is the Cultural Performance. In this event, each participating country will showcase the respective cultures through songs, dances, and stories. We will also see interesting costumes from each country. Every year, this event leaves a lasting impression.

8. Roles of Youth

The role of youth as caretakers is a highlight of the CEI annual conference. This time, we will strengthen the role of youth as caretakers by encouraging CEI participants to create a collaborative project called the CEI Global Project 2024. This project will be implemented in their respective countries while still communicating and collaborating in a joint working group agreed upon during the conference. The goal is to implement a long-term joint global project so as to make real changes to the environment in their respective countries with the initiation of young caretakers. We hope that innovations will be born from the CEI Global Project 2024.
