**Subject:** Sigma Pi June Work Party

Greetings,

Just a reminder that there will be a work session at the house on Tuesday June 17th from 9-3. We have some jobs to do inside and out. Some treads need to be replaced on the fire escape. The escape needs a water proofing treatment as well. Some weeds need to be wacked. Inside, we have work on the drywall in the Pink Floyd room and some repair work in the small bathroom on the second floor. It would be nice to see as many Alumni as possible. Kindly let me know of your availability.

I know not all of these sessions are convenient for many of you. During the school year, we like to get the active brotherhood involved, so we usually will work on a Saturdays. However, if everyone on this email were to give a minimum of just one work session a year, can you imagine how much would be accomplished? Much of the house is vacant right now. We will be conducting a room inspection of the entire house, and repair/replace necessary items. Active brothers are certainly welcomed and encouraged to attend on Tuesday if available. Cap, please pass this along to the newer brothers.

Jevo,

Bill Horvath
