

Subject: Work Party Report – A Brief Factual Report
Date: January 27, 2018
From: Jeff Dennis

Jeff Dennis (Driving) and Dave Martin (Riding Shotgun) arrived at The House (12 Smith St.) at 9:30. They met Rich Houck, also recently arrived, in the parking lot. Between the three of them, they were able to patch together the combination to the lock on the rear door. They entered The House and were greeted by Doc Moyer and a near lethal dose of fumes from disinfectants and cleaning materials. Jeff Bruno & John Connelly arrived shortly thereafter. Eric Koch materialized sometime during the next hour.

Jeff B. & Jeff D. examined the rear fire escape for any needed repairs. None were deemed necessary; Jeff B. remarked that it looked better than the last time he was up there. (Steck & Jeff D had done some repairs at the previous Work Session back in December.) It was noted that a cosmetic repair to the hand rail from the 3rd floor to the 2nd floor landing would be nice. We need about 16' of 5/4" 1x6;(located some in the outside shed later in the morning. Will install at next Work Session).

Jeff B then asked Jeff D & Dave to seal off the 3rd Floor entrance to the protruding window box in the front room. We discussed our ideas with the current occupant. It was decided to cut & install 4 panels of 3/4" plywood. They attached two handles to the lower left panel for ease of access to the box, which also serves as the occupant's closet.

Eric Koch led a group of current brothers in painting the Meeting Room on the 1st floor.

Dave cleaned & organized the outside shed.

It was a busy day at the House. Jeff B conducted a meeting attended by John Connelly, Rich Houck, Danny S. & Dave Czahor and some of the current brothers.

The current Officers (Actives) held a meeting in the Trophy Room.

Ron Steckel & Tom Petro showed up after the ESU Board meeting.

NOTE: SPECIAL THANKS TO ALL THE ALUMNI AND ACTIVE BROTHERS WHO CONTRIBUTED TO THIS WORK PARTY.
