Subject: Work party Update Wed July 15

Now hear this Dr. Willybugs.....the reason women golfers always hit straight is because they HAVE NO BALLS.....our balls either hang to right or the leftand that's where our balls usually go.....why do you think they named it a "hooker?".....next time we play.....drop your shorts and take a couple of drives and we can confirm thisI read this on the internetso it's gotta be true.....!

The reason women can't putt istheir tits get in the way.....they can't see the ball.....I thoouought you knew this.

I was going to clean the stairs and hallway on Wed. and bring my rug shampoooover up with me.....her name is BetsyBrissel.....plus my vacuum.....do you remember my vacuum??.....those steps haven't been cleaned since you found me sleeping on them in 1970. I will also bring my power washer up to do the porch.....sounds like we have a long list of things to do.....hope we get some extra help this month. jevo steck
