Sigma Pi Work Party Update.....Jan. 20, 2015 (please pass on to all emale Brothers)

As I drove up to Smith Street on Tuesday.....I saw many students walking the paths we once stumbled on.....that told me that the 2nd semester was starting at ESSC. I originally thought they were starting later.....that's when I usually showed up.....2 daze late.....anyway.....!

We (recent new alumni member Kevin "Stump" Stumpf and I) sanded the two pocket doors and put another coat of poly on the 3rd floor bathroom door. We also went into the basement to inspect the working conditions of the washer and dryers.....all okone active stated the one dryer does not always shut off and the dryer runs until someone comes down to collect their laundry.....this needs to be addressed cause it uses up allot of my energy.

We also got to talk to 5 or 6 Brothers and caught up with their thoughts on the new semester.....3 out of the 5 or 6 told me that they don't want to leave.....they enjoy this place a great deal.sorta like many of us when it came time to leave.....when will we have this environment of goodwill, support, and kindred spirit again?

I want to bring up some scraping tools next time to clean up the molding around the insets on the pocket doors.....I did not want to poly them until that is done.....hey Goody.....what type of poly did you use on the rest of the trim in the meeting room....gloss, semi, (like you), or satin, or flat like me?.....I only brought clear gloss with me and Dr. WillyBugs said check with you so everything matches.

Kevin shudda got your scholarship last year.....he's shown up so many times as an active and now, I think he's the first one to show up as a recent alumni.

We have a Founder's Day Meeting coming up in February.....we also have a ESU Alumni Board meeting scheduled the same day.....Feb. 21st.....so maybe the Founders Day can be pushed to 11am or later to allow any of the six Sigma Pi's on the board **to do both**.....always liked the way that sounded.....**let's do both of'm**.....I forget which Brother taught me that back in the late 60's!!

Please let me know what date any of you would like for the next work day.....home phone is 610 948 0416.

ps: Golf season is just around the corner.....not to early to think of a Golf-together.....I recently heard my golf instructor tell me to keep my head down.....so I don't see him laughing!

jevo to all
