Subject: RE: Work Party Update Oct. 10, 2015

You are the greatest writer. I'm going to have you do all of the work party summaries from now on.

By the way, the car problem was a faulty "oil pressure switch". When the RPMS go up, this gadget increases the oil pressure to insure adequate "lubrication" of the engine of course. This cost us two hours of time and \$ 150. A small price to pay for family fun.

Bugsy

## **Saturday Oct. 10, 2015** **Beta Psi Alumni-Active** **Work Party**

It's hard to say.....who enjoyed the day more.....the Alumni or the 13 Actives and 6 new pledges. On a glorious day in the sun-filled 😊 Poconos (leaf diversity would make Christopher Columbus proud).....Doc Moyer 63' and Rich Houck 69' ...were already there working their jaws when I arrived. House Doctor Bugsy Horvath 70' was stuck in DeBois, Pa on the way to Indianapolis and 5 grandkids. Willy was trying to find a Honda dealer to fix his oxygen sensor on his bucking car. I told him on the phone...."if we were on a "road trip" we wooda got stuck in "DeGirls, PA instead. It gave new meaning to the holiday....."Indianapolis 400 miles to go" on Friday.

Jeff Dennis 69' arrived 10 minutes late because he drove through campus 2 extra times on his way to the House.....the roads and avenues were filled with pink direction markers and pink-clad co-eds 😊 in preparation for the Run-Walk Breast Awareness fund raiser taking place at 10pm. Lurch wanted to stay longer because he claims he is the 😊 "Pope of Breast Awareness".....but his skills were needed at the House. He watched me look for the 2nd floor shower stall

leak coming into the kitchen.....his personal flashlight aided greatly in discovering there was no f....in lead.....even with all 3 showers running...we agreed to put this one on "Margie the Bitch." I left a tube of caulk for Casey Shaw (HM) to "seal the deal" if she comes back!

Alumni "Sage of Wisdom" Marlin Evans 68'.....shows up in his antique Porsche.....shares he is donating the money 🇺🇸 to totally RE-HAB the 2nd floor bathroom during the month long Xmas break.....if he wins the lottery. Marlin 🇺🇸 will probably need some help.....since he is such a loser.

Rich Houck 69' did his "whacking" thing 🤪 again all around the House property.....just like back in the late 60's. Richie had the BEST STORY of the day. He related that when his new MC card came in the mail with the new chip....he was so proud to share that he immediately took his old one and shredded it in his shredder.....like many of us older wise men would do. Only dilemma....Richie mistakenly shredded the new one instead of the old one.....he hasn't had sex since 🗑️.....what a puttz!

Jeff Dennis went out for coffee and donuts .....that was another 45 mins. we didn't do any work. We did discuss IRS issues and decided that this place is not exactly "the land of the free!" Doc Moyer 🤪 did his usual "Mr. Clean" impression again....he is truly a connection they need to witness.....a Brother who truly cares about them and acts the talk with his most special walk. Dave Reciniello14' 🤪..... showed up empty handed and asked "wherzz da donuts".....Dave supervised something during the day.....maybe the poly drying on the sliding doors or the leveling of the fire pit.....he must be lonely.....cuz this is the 2nd work party in a row he came to.....send him a card or something. 😊

The following actives and pledges helped throughout the day on various jobs:

**ACTIVES:**

Gregory Anastasides / Brandon Wallick / Dylan Pease / Casey Shaw-.....Clear Coat on Sliding Doors  
Seth Fornwalt / Dylan Dorey / Justin Walker / Jeffery Yorty / .....Help Doc clean the 1st floor  
Ronald Eith / Michael Eccleston / Vickson Kran / Cody O'Connor / Jarred Agee / .....cleared, dumped, prepared fire pit for new blocks

**PLEDGES:**

Kyle Kobran / Dom Carleucci / Steve Morris / Leider Vega ..... ditto fire pit

There is still time to make plans to come to Homecoming 2015 this weekend. Breakfast Brunch at 12 Smith St. at 10am.....preceeding Annual Alumni Meeting at 11am.....and Tailgating behind Zimbar before the Game at 2pm. Friday's ESU Awards banquet will include the presentation of the "Skip Idukas Service Award" to John "Goody" Gudikunst 63' ...for contributions above and beyond normal FizzEd Jocks. Cocktails (5pm-6pm) sponsored by the NY Giants in honor of Off. Line Coach Jim Flarerty.....can be guzzled even if you're an Eagles fan. I'm sure the free "Nectar of the Giant" will taste just as good a the beverages at "MiniSink Marge's", Rudy's, and the Traincoach.

Please keep your eMALES, cards, and prayers going Bud Cole's 65' way....he had a recent set back in his recovery coming back to wife Bev and all of us. Good thoughts and positive visions for Brother Dave Martin 69'.....as he explores his choices for upcoming treatments.

ps: Sub-standard thoughts for my house cleaner (Vicki) and my tenant (Pam) as they explore the meaning of my phrase to them....."I'm here for you!"

Fraternally.....Jevo.....Steck 70'
