To whom it may concern,

Since I was 12, I've dreamed of working in scouting, and my determination to get my dream job has never died out. The dream of working in scouting is something I've always had and will work until I achieve said dream.

Through advanced metrics and watching the fundamentals of said player, I can get a firm idea of said player's floor and ceiling, along with concerns and strengths. Through my years at ESU, I hope able to gain a firm understanding of how the sports world is run and how well my skill set would fit in any cooperation. I feel as though I'm qualified to achieve this scholarship, and this will go a long way in helping me to further my college education and also achieve my childhood dream.

Thank you for taking the time to look over the current paper. To reach me, my phone is 570-892-8531, and my email is [Jordanvalenti05@gmail.com](mailto:Jordanvalenti05@gmail.com).

Sincerely,  
Jordan Valenti

I am very family orientated. No matter what's going on in my life I always aim to make time for my friends and family. I am always completely focused on my work and look to bring the best possible effort to whatever I may be working towards. I look to bring the people around me up and while I make the climb up to the best possible person, I also look to help them the best I can. I have been working for the last three years of my life at my local Texas Roadhouse, but I plan on moving and looking at internships over the next few years that can benefit my goal of making it in the sports industry as I'm getting my bachelor's degree in sport management. I am very interested in anything sport-related; basketball, football, and baseball are all sports I take a massive interest in and hope to work in someday. I have volunteered over the last year at East Stroudsburg University (ESU), whether it be for street cleanups or working basketball games, I have also been elected vice president of the sport management club at ESU. I plan on entering the sports field as soon as I graduate. I look to be a scout in one of the three major sports I named before, but I am also looking at possible avenues such as ticket sales, promotion, or just sales in general within any organization. I feel as though I should receive this award as I think I represent what Sigma Pi stands for. I look to bring up the people around me, I am always looking to bring my best ideas and my best workability to help Sigma Pi be the absolute best it can be. I look to spread kindness and positivity through everyone I meet while also helping anyone I can.
