AI Solutions for Business Support Organizations

One view of impact. Faster reporting. No rip-and-replace.

The Opportunity

Business Support Organizations face heavy admin loads, fragmented tools, and missed opportunities for collaboration. Our AI-powered approach streamlines workflows, boosts team capacity, and connects data to impact.

AI for Operations

Automate reporting, intake, and program delivery. Free up staff to focus on entrepreneurs, not admin.

AI for Capacity Building

Train your team to integrate AI into everyday work—strategy, service delivery, and stakeholder engagement.

AI for Client Impact

Streamline onboarding, engagement, and outcomes tracking with custom workflows and AI-powered tools.

About Rebel Ventures

We're a Chicago-based strategy and execution team helping Business Support Organizations use AI to work smarter, not harder. With experience inside the local ecosystem (GSDC, FLV, CTT, FEBG), we know the challenges first-hand and we build practical, privacy-first solutions that deliver real results without disrupting the tools you already use.

Professional Development

Co-create with your team:

- Phase 1: AI 101 Introduce + Assess tools and workflows; build your AI roadmap.
- Phase 2: Train staff on selected AI tools and integrate them into daily operations.
- Phase 3: Establish AI champions and sustainable practices for long-term growth.
