# FARM & WILDERNESS

A BACKPACKING TRIP FOR AGES 14-16 WITH  
FARTHEST FIELD EXPEDITIONS

---

Welcome to a Farm and Wilderness adventure! Our journey begins with a day of farm activities and expedition preparation. The next day, we'll swing our packs on our backs and hike into the mountains. We'll camp next to remote lakes, summit mountains, complete crafts, practice camp cookery, and have time to explore and for solitude in nature. On the final day we say goodbye to our wilderness expedition life, and head back to the farm for a celebratory meal. After a closing circle, you'll depart for home, hopefully with a deepened connection to yourself, each other, and nature.

---
