

Thank You for considering linking to Radiobob

The following information may be helpful when deciding how or where to put the link and what text you might consider. These are just suggestions, and we appreciate the offer to place this link.

Our website link is <https://radiobobusa.com/>

Our player link is <https://s4.radio.co/s305bd7ee4/listen>

You can place the player link in text, in a picture or icon which will play music as soon as they click it. If you do not want them to hear music from your page, you would use the website link.

You may want to use a graphic and ours is here

This logo is available on a white background and with various text or even a transparent background, we can send that to you.

Phrases could be; “Click to Listen”, “We support radiobob” , “Free to Listen Ad Free Premium Music.”

We also have this mashup.

Which we use on our Facebook page at the moment.

And so-on

We are working on new Jpegs and Icons for this purpose.

Thank You

Bob West
