

Run #2078, 10th March 2025, The Gardeners, Brentwood

Hares:- Compressed Fart & Corpse Shagger

Another cold evening, this time in Brentwood as we circled up, and the GM sent us on our way! There was another good turnout, although a number decided to keep the seats warm in the pub!

The hare had told us there were 'lots of checks' – to keep us together – but this didn't seem to work – as we soon spread out and created our own re-group to wait for the walkers. Some of the route seemed familiar to those who had done the Compressed Farts previous trail, as it seemed to be very similar – only backwards. The trail went on – and on – and up - and we kept thinking we would find the beer stop..... until eventually we found a cold Corpse Shagger by the side of the road, with all his wares laid out on the table. We quickly tucked into the KitKats & beer, and were ready to tackle the final track back to the pub. Zipper lead the walkers on a short-cut – whilst the runners had to go further away from the pub before we could come back again! However, Zippers knowledge was short-lived, as he proudly stated he was off on another 'short-cut', only to come back from the dead-end with his tail between his legs!!

Finally we made it back – it seemed a bit longer than usual, for a cold March night. The pub was warm & welcoming – even though we did go outside for the down-downs, which were given to AGO (for a big number), Lunchbox (for a big birthday, actually Small Prick drank this one!), Dr Doolittle (for pyjamas, actually Vicki Vomit drunk this one!) among others!

On! On!
