

## **Run #2147 Monday 23<sup>rd</sup> June**

### **Hares:- Compressed Fart & Corpseshagger**

Twenty eight hashers gathered in the car park of the White Horse in Coxtie Green, and then as we circled up Corpseshagger departed for the beer stop, nearly running over half the hash on his way!

Before we set off, Zipper informed the group of the sad passing of Medallion Man. A moment's reflection was held, and several stories were regaled including the famous 'balloon dance'.

The Hare, Compressed Fart, gave us the low down on the route and the markings, and we were soon on our way. It was a hot evening, although there was some cloud cover which made it slightly cooler.

It was a nice run, along the roads and then off road through some low lying branches in the woods! We finally got to the beer stop, where Corpse had the usual array of chocolate and beer!

It was then onto the second half of the trail, although there were a few short cutters, who didn't complete the whole trail - going back along the road.

Once back at the pub, we all sat in the garden, to enjoy the lovely evening. Food was served, and we all had a good chat and a catch up, as a few hashers had been on holiday the week before.

It was then onto the down-downs. Corpse got one for his poor driving and being a hare, alongside Duff Diver. 359 got one for the route he chose to get to the pub, which seemed to confuse Sir Casey. Sooty, Zipper and Tiny Tears all were comparing their knee ailments/scars etc, Tiny Tears had also completed 50 runs (taking about 40 years!), Dr Deaf for having a 'hot wife', Sucked In for running round the pub garden (rather than running the trail), Comes Not a Lot & Fag After for spotting some wildlife, the Hare again, and finally Vicky Vomit & Froggy - drinking a toast to Medallion Man!

On! On!
