

Run #2160 Monday 14th September, The Bakers Arms, Stock

Hare:- Small Prick

Tonight we are gathered at The Bakers Arms in Stock (not to be confused with the often visited Bakers Arms in Danbury!). This was our fourth visit here, the last being in August 2021. There were 24 hashers ready to go, as the GM called the circle to order. It was a lovely warm evening again – we've been so lucky with our hashes this year.

Small Prick briefed us on the trail – it was mostly laid in sawdust – even the bit through the recently chopped woodland – which was actually covered in – sawdust! Anyway – we seemed to get round – so that wasn't too much of a problem. The speedy hashers set off on their way – and the hare pointed out a few short cuts for the knitters. It was a lovely trail, mostly through woodlands and trails –but not much shiggy to be found! We got to the beer stop, and the hare provided beer, jelly sweets and tap water.

We then went on our way – but had trouble at the next check – before the hare gave us a clue as to which direction to go. By now it was getting very gloomy, and the hashers torches had come out of hibernation and were glowing through the trees. The very fastest hashers went so fast – they missed the On-Inn. 359 & Fourplay were much more sedate, and along with Dr Deaf followed the correct markings – and were the first back to the pub.

Once back at the pub, it was so lovely we all sat outside. The RA called us to order and the down-downs were awarded, firstly to the Hare – for the lovely run, then there were two awards – 359 for 100 runs, and Fourplay for 200 runs. Then we had Dr Deaf and Liq Allsorts in their 'his & hers' matching day-glow t-shirts (we weren't going to lose them!), the four hashers who seemed to go the scenic route back – Sludge, Count, Basil & Comes not a lot. Comes not a lot then got another – to wish him well on his travels before we see him back again at Xmas.

On! On!

Fourplay
