

Run 2146 – Shepherd and Dog

North Stifford – Hare Sludge

For some reason the traffic was extremely light and we arrived at the pub not long after half 6.

Corpse was already in the garden and Smallprick was standing at the rear of a strange car. The Canvey crew had parked up too.

Lunchbox and I went into the pub to enter the car reg, shortly followed by Zipper (looking for the loo) Pulled out, Sucked In and 359.

Digger and Fergie arrived and after chatting for a bit we went out to join the rest of the pack. After looking around I realised that the GM was absent so I called the circle up at 6.59 and welcomed the returnees Digger & Fergie but as I hadn't been myself for a few weeks I went straight to the hare for trail advice. At this point Smallprick welcomed me back!!!

The pack went up the road opposite the pub, Fergie went back into the pub and Corpse, Sucked In and myself went along the road towards the village cricket ground where Pied Piper had settled to watch the game.

Apparently the trail was a good one and included a viaduct and going down to the Mardyke. As the pack arrived back I realised that I had forgotten to appoint an RA as Casey had decided to renege on his duties and jet off to Spain. A quick chat with Hashers that were not fulfilling their hashing duties meant that Smallprick and Vicky (who had arrived at the pub at 7.10pm and was surprised we hadn't waited for him) presided over the Down Downs (the beer looked cold and fizzy) The raffle was outside and shortly after this we headed home as I was cream crackered as I had done a seated fit class in the morning, done some gardening in the afternoon and walked a few hundred yards. Hopefully a bit longer next week.....
