

## **Run #2093, Monday 22<sup>nd</sup> June 2025, The Horse & Groom, Galleywood**

### **Hares:- Casey, Blowdry, AGO & Heapo**

A fine Monday evening saw the hash gather at the Horse & Groom in Galleywood. We were lucky to have this venue, as they don't open on Mondays, but as they had another group in attendance, were happy to accommodate us as well (no food, but plenty of drink)!

The GM addressed the circle, explaining that there would be 3 trails to follow tonight:-

- Green for the Knitting Circle
- Pink for the walkers
- White for the runners (!)

So, we all split off in our groups – with everyone shouting 'On On' – it was slightly confusing until we developed our own call signs – 'On-White', 'On-Pink', 'On-Green' (that didn't take too long!). The white group soon disappeared away from the Common, and meandered through the back-streets & paths of Galleywood. However, the pink and green gangs were meandering through woods of Galleywood – with their paths criss-crossing. The Pink hash found the rope swing, and the Master & Pied Piper had a go. Some of the green group seemed to doubt Heapo's ability to lay a trail and returned to the pub! Most of the hashers seemed to have migrated into the right group for their ability, although Froggy seemed to be puffing a bit when he eventually arrived at the back of the 'running' group!

Finally all of the hashers made it to the beer stop – almost all at the same time – great planning! It was then time for everyone to follow the White trail back to the pub, where we sat on the (village) green – making the most of the lovely evening outside.

It was then time for down-downs, conducted by the joint RA's, The Count & Vicky Vomit. Included in the down-downs were Sooty & Dr Doolittle for car-watching, Tiny Tears & Zipper. We all raised a glass to Boing Boing for completing his 100,000 step challenge at the weekend (48 miles), and Froggy had his down-down. Corpse also awarded a down-down to the stick-stealer – Casey!

On! On!
