

Run #2138 Monday 20th April, The White Hart, Margaretting Tye

Hares:- Pied Piper & the Master

Tonight we gathered at the White Hart, Margaretting Tye, where the hash last gathered in January 2026 for the Xmas dinner, but prior to that it was in 2010 when we last visited. It was a bit chilly as we made the circle, but the evening sun was shining bright, and we soon warmed up as we got running. Thirty hashers were gathered, swelled by Pied Pipers army as usual. We set off on our way, along the road, and then off into the footpaths & field edges, the ground was incredibly hard, as we haven't had any rain, and it places it was very uneven and difficult to keep a sure footing.

Dr Deaf came a cropper as we went through the woodland, a large root took him out, and he did a giant forward roll, just managing to miss an overhanging tree branch. Initially he looked a bit the worse for wear, but a bit of a cuddle from Liq Allorts – and he was soon feeling a bit better, and managed to carry on with the trail. AGO & Blowdry found the going a bit tough, and decided to cut short their run and head back to the pub. Just after this we encountered the first field of cows, they were all very vocal, protecting their youngsters, and luckily they weren't that interested in us!

Once at the beer stop, and most of the Knitting Circle had made it, we all stopped for a beer and jelly babies, then a few more headed off back to the pub, and the rest of the pack headed across another cow field. We then went back up a final alley, to get to the road which led us back to the pub.

Back at the pub, and time for the down-downs – we had AGO reaching her 1100th run – well done AGO! We had Sooty reaching some sort of Hashy birthday, Dr Deaf for his tumble, Zipper, Sir Lunchbox and Frogman for other hashy misdemeanours, Tiny Tears for not wearing many clothes, Sucked In for wanting another glass of wine, Compressed Fart as a delayed thank you for organising an excellent trip to Antwerp (see run report 2136), and finally the Hares – for an excellent trail!

On! On!
