

Run #2084, Tuesday 22nd April 2025, The Rodney, Little Baddow

Hares:- Fourplay & Fag After

As it was Easter – the hash was arranged for a Tuesday, which gave us a chance to visit The Rodney – which is normally shut on Mondays. As it happened – she planned to be shut on this Tuesday as well – but opened just for us! (Although worryingly, the ‘Closed’ sign was still out as most of us arrived!).

Anyway - we hadn't been to The Rodney since 2014 (hared by Vicky Vomit), so it was overdue a visit! The first problem for some was actually finding the pub – Heapo & AGO were seen going sailing down the hill past the pub, and 359 was seen going up the hill, and had to ask Fag After (who was walking to the pub) for directions!

Eventually most people had arrived, and it was time for the GM to set us off – on a lovely mild & bright evening. (Vicky Vomit & Dr Doolittle arrived a little late, and did their own thing following the trail for a bit, and Corpse Shagger was just late!).

Once the trail got underway, it was a steady climb uphill, winding through the woods until eventually reaching the road, passing lots of elephant dung along the way – or perhaps it just a horse? Henry wasn't sure?

Then it was time for the beer stop – where the knitting circle had arrived about 5 minutes before, and there was a nice drop of Shore Leave, as well as Easter Egg for everyone, and then it was back off into the woods for everyone. This time there were lots of bluebells to see – which must have distracted Zipper – as he managed to fall over a twig which was in the middle of the path! Anyway – it was a lovely trail – if a little hilly, and the final section was back through Heather Hills.

Back at the pub, and there was a lovely spread for the 21 hashers to tuck into followed by some lovely beers. The Count took on the role of RA for the evening, and the down-downs were duly handed out (Fourplay, Fag After, Compressed Fart, Heapo, Henry, Vicki, Zipper, Dr Doolittle, Basil and Small Prick).

On! On!

Fourplay
