

## **R\*n Report – R\*n 2070 – The Two Brewers, Chelmsford – 13<sup>th</sup> January 2025**

The Essex Hash House Harriers were called to the Two Brewers in Chelmsford for Hash R\*n 2070. It was a cold, dry evening, and well over 20 hashers gathered in the car park (where not many hashers had parked – as there wasn't much space!). We were waiting for everyone to arrive – as the traffic was busy – and in the end we had to leave before Fag After (beer stop assistant) had arrived – and he was left with instructions on how to find the beer stop!

The hash set off, down a spiral stair case and along the canal, with views of the new bridge in the distance (for a future hash?). We passed many local hostelrys on the way – some of which we have visited before. It was then up and down a few more stairways (of the subways), before arriving alongside the market – where the beer stop was set up – Fag After had made it!

After the stop it was along to the railway, where some went over the top & down the spiral staircase and some along the bottom. The hare then had some trouble setting the trail as she found a dead-end – and had to re-trace our steps to the cathedral, which was tolling the bells in our honour. We then headed along the high street and along Bond Street – where Basil was keen to get back to the pub – but Fourplay insisted that he completed the trail (On is THIS way...).

Finally, we made it back to the Tesco car park, and through the back-alley to see the Two Brewers in front of us. We then gathered in the cosy front room, where we feasted on sandwiches and chicken skewers, before the down downs and raffle in the cold car park, with Pacemaker ably taking on the role of Beer Master.
