

Hash Report 2121

The 20 hashers gathered on a bright Sunday morning, at the Nags Head in Ramsden Heath, alongside the Essex Steam Hash (!), Small Prick was also there with his steam engine (!). We welcomed Pied Piper and Little Miss Naughty and the gang, who rarely come on a Sunday, as well as a welcome return for Ever Ready.

The GM called the circle to order and the first part of the trail was to follow Evelyn, the steam engine, along the main road and down a side road (a live hare/engine!).

It was at this point that Fourplay, who was marking the trail managed to collide with a passer by, and earn a down down. We then ventured off road, and the engine could no longer follow, and the FRB's were soon ahead. We waited at a RG, and Fourplay offered to wait for the walkers, funnily enough from this point the FRB's then went wrong and found themselves on the in-trail, and Fourplay and the walkers were the first people to arrive at the beer stop, which was easily found by following the steam whistle!

Finally everyone gathered and beer was drunk, we then completed the trail, and Heapo took a ride on the engine to get back to the pub.

Once we returned, the Count had done over 6 miles, quite long for a hash! The down downs were then awarded, Heapo for being the wide load, Fourplay for the collision, the Hare, Lunchbox who pronounced he was ready for bed on his return, the Count for his miles and the Master for representing the Pound Lane gang.

We had all had a good morning for the last hash of 2025, and are looking forward to many more in 2026. Happy New Year.

Fourplay
