

DSC Ecochallenge Santa Ana, CA

Owner

Discovery Science Center
Santa Ana, CA

Architect

Bill Caskey & Associates
Corona del Mar, CA

The Ecochallenge exhibit consisted of two interactive exhibits; The Race to Recycle and The Discovery Market. Significant structural modifications were made to the 2nd floor to accommodate the exhibits including adding steel beams and floor systems. Race to Recycle has objects on a conveyor belt which must be placed in the correct recycle bins to win. Discovery Market uses interactive shopping carts and kiosks to teach the kids to select food items which are packaged in an eco friendly manner.
