

## City Residential Fire

1st Truck	Size Up/ Establish Command Fire Attack/Search&Rescue	Assume IC, select staging area, give a size up, determine need for rescue, ventilation, and fire suppression. Primary responsibilities are forcible entry, rescue, and suppression Booster tank will be the primary water source.
2nd Truck	Pump Operator Fire Attack/Search&Rescue Backup Team Take over 1st Truck Pump Ops.	Notify IC when departing station with number of personnel Primary responsibilities are assist with forcible entry, rescue, and suppression. Secondary is additional pumping capabilities.
3rd Truck	Utility Shutoff Exposures Ventilation Ladder Building	Notify IC when departing station with number of personnel Primary responsibilities shall be ventilation, laddering, and protecting exposures. Be prepared to lay supply lines for additional water needed by 1st arriving engine and its own operations.
4th Truck	Water Supply	Notify IC when departing station with number of personnel. Be prepared to lay supply lines for water supply needed by other engines.
Rescue	IC Assistant Safety Officer RIT Team	Notify IC when departing station with number of personnel This trucks primary responsibilities will be to provide support to the IC, and to establish a RIT team if not already in place.

## City Apartment Fire

1st Truck	Size Up/ Establish Command Fire Attack/Search&Rescue	Assume IC, select staging area, give a size up, determine need for rescue, ventilation, and fire suppression. Primary responsibilities are forcible entry, rescue, and suppression Booster tank will be the primary water source.
2nd Truck	Pump Operator Fire Attack/Search&Rescue Backup Team Take over 1st Truck Pump Ops.	Notify IC when departing station with number of personnel Primary responsibilities are assist with forcible entry, rescue, and suppression. Secondary is additional pumping capabilities.
3rd Truck	Utility Shutoff Exposures Ventilation Ladder Building	Notify IC when departing station with number of personnel Primary responsibilities shall be ventilation, laddering, and protecting exposures. Be prepared to lay supply lines for additional water needed by 1st arriving engine and its own operations.
4th Truck	Water Supply	Notify IC when departing station with number of personnel. Be prepared to lay supply lines for water supply needed by other engines.
Aerial	Additional Fire Attack Scene Support	Notify IC when departing station with number of personnel Respond to Staging Area, Standby, Fight Fire or Cover Exposures as directed by the IC
Rescue	IC Assistant Safety Officer RIT Team	Notify IC when departing station with number of personnel This trucks primary responsibilities will be to provide support to the IC, and to establish a RIT team if not already in place.

## City Commercial Fire

1st Truck	Size Up/ Establish Command Fire Attack/Search&Rescue	Assume IC, select staging area, give a size up, determine need for rescue, ventilation, and fire suppression. Primary responsibilities are forcible entry, rescue, and suppression Booster tank will be the primary water source.
2nd Truck	Pump Operator Fire Attack/Search&Rescue Backup Team Take over 1st Truck Pump Ops.	Notify IC when departing station with number of personnel Primary responsibilities are assist with forcible entry, rescue, and suppression. Secondary is additional pumping capabilities, and locating FDC.
3rd Truck	Utility Shutoff Exposures Ventilation Ladder Building	Notify IC when departing station with number of personnel Primary responsibilities shall be ventilation, laddering, and protecting exposures. Be prepared to lay supply lines for additional water needed by 1st arriving engine and its own operations.
4th Truck	Water Supply	Notify IC when departing station with number of personnel. Be prepared to lay supply lines for water supply needed by other engines.
Aerial	Additional Fire Attack Scene Support	Notify IC when departing station with number of personnel Respond to Staging Area, Standby, Fight Fire or Cover Exposures as directed by the IC
Rescue	IC Assistant Safety Officer RIT Team	Notify IC when departing station with number of personnel This trucks primary responsibilities will be to provide support to the IC, and to establish a RIT team if not already in place.

## City Industrial Fire

1st Truck	Size Up/ Establish Command Fire Attack/Search&Rescue	Assume IC, select staging area, give a size up, determine need for rescue, ventilation, and fire suppression. Primary responsibilities are forcible entry, rescue, and suppression Booster tank will be the primary water source.
2nd Truck	Pump Operator Fire Attack/Search&Rescue Backup Team Take over 1st Truck Pump Ops.	Notify IC when departing station with number of personnel Primary responsibilities are assist with forcible entry, rescue, and suppression. Secondary is additional pumping capabilities, and locating FDC.
3rd Truck	Utility Shutoff Exposures Ventilation Ladder Building	Notify IC when departing station with number of personnel Primary responsibilities shall be ventilation, laddering, and protecting exposures. Be prepared to lay supply lines for additional water needed by 1st arriving engine and its own operations.
4th Truck	Water Supply	Notify IC when departing station with number of personnel. Be prepared to lay supply lines for water supply needed by other engines.
Aerial	Additional Fire Attack Scene Support	Notify IC when departing station with number of personnel Respond to Staging Area, Standby, Fight Fire or Cover Exposures as directed by the IC
Rescue	IC Assistant Safety Officer RIT Team	Notify IC when departing station with number of personnel This trucks primary responsibilities will be to provide support to the IC, and to establish a RIT team if not already in place.

## City Auto Extrication

1st Truck	Size Up/ Establish Command Extrication	Assume IC, select staging area, give a size up, establish fire protection, stabilize vehicle and start extrication.
Rescue	Additional Tools and Personnel Safety Officer	Notify IC when departing station with number of personnel Assist with vehicle stabilization and extrication The Safety Officer will come off this rig.
2nd Truck	Additional Tools and Personnel	Notify IC when departing station with number of personnel Assist with fire protection, vehicle stabilization and extrication.

## City Vehicle Fire

1st Truck	Size Up/ Establish Command Fire Attack	Assume IC, give a size up, determine need for fire suppression, Primary Fire Attack
2nd Truck	Take over 1st Truck Pump Ops. Primary Fire Attack w/Tool Disconnect Battery, Backup Safety Officer	Notify IC when departing station with number of personnel Assist with Primary Fire Attack, establish back up team, and scene safety.

## Confined Space Entry

1st Truck	Size Up/ Establish Command Search&Rescue	Assume IC, select staging area, give a size up, determine need for rescue and ventilation Primary responsibilities are atmosphere monitoring and rescue.
Rescue	Utilities Assist with Rescue Assist IC Back Up	Notify IC when departing station with number of personnel Primary responsibilities include Utility Lockout, assist primary rescue, assist with equipment set up, Monitor Atmosphere
2nd Truck	Assist with Set up Safety Officer Back Up	Notify IC when departing station with number of personnel Assist with Set Up, Back Up Team, Assist with Rescue Establish Safety Officer
3rd Truck	<b>IF SCENE IS HAZMAT WITH CONFINED SPACE RESCUE</b> Haz Mat trailer De-con	Notify IC when departing station with number of personnel. Hookup to Haz Mat trailer, proceed to scene, setup decon if needed, assist with setup.

## Water Rescue

1st Truck	Size Up/ Establish Command	Assume IC, select staging area, give a size up, determine launch site for boat or RDC, attempt rescue from shore, assist with rescue operations on boat.
Rescue	Additional Tools/Manpower Rescue	Notify IC when departing station with number of personnel. Don Gumby Suits, Set Up RDC, assist with rescue.
1st Pickup	Additional Tools/Manpower Equipment River Pro Boat	Notify IC when departing station with number of personnel. Launch Boat at designated site, proceed to rescue site.
2nd Pickup	Additional Tools/Manpower Equipment City Boat	Notify IC when departing station with number of personnel. If needed, launch boat and proceed to rescue site.
2nd Truck	Additional Manpower Safety Officer	Notify IC when departing station with number of personnel. Assist with rescue

## HAZMAT

1st Truck	Size Up/ Establish Command Search&Rescue Stabilize Incident	Assume IC, select staging area, give a size up, conduct search and rescue, stabilize incident
2nd Truck	Pump Operator Assist Primary S&R Back Up Team	Notify IC when departing station with number of personnel Assist Primary Search and Rescue Operations Establish Back Up, Deploy RIT kit
Pickup	Hazmat supplies	Notify IC when departing station with number of personnel Hook up and respond with HAZMAT trailer Set up in designated
3rd Truck	Report to Staging/ Communicate with IC	Notify IC when departing station with number of personnel Communicate with IC for assignment, Utilities and Exposures are priorities for this crew
4th Truck	Water Supply	Notify IC when departing station with number of personnel If needed, establish water supply for operations If no water supply needed, go to staging
Rescue	Assist IC Assist with staging and decon Replace Backup team	Notify IC when departing station with number of personnel Assist IC, proceed to staging

## LP Gas Fire and Leak/Anhydrous Ammonia Leak

1st Truck	Size Up/ Establish Command Stabilize Incident	Assume IC, select staging area, give a size up, determine need for rescue, ventilation, and fire suppression. Primary responsibilities are stabilizing incident, rescue, and suppression, Booster tank will be the primary water source.
2nd Truck	Pump Operator Stabilize Incident Backup Team (if needed) Evacuation (if needed)	Notify IC when departing station with number of personnel Primary responsibilities are assist with stabilizing incident through rescue, suppression, and evacuation
Rescue	1st Truck Pump Ops Safety Officer Incident Stabilization	Notify IC when departing station with number of personnel This trucks primary responsibilities will be to provide support to the IC, and incident stabilization.
3rd Truck	Exposures Hose Tend Staging	Notify IC when departing station with number of personnel Tend Hose if needed, set up staging area Be prepared to lay supply lines for additional water needed by other apparatus
4th Truck	Water Supply	Notify IC when departing station with number of personnel. Be prepared to lay supply lines for water supply needed by other engines. Report to Staging if supply already established.

## Grass Fire

---

1st Truck	Size Up/ Establish Command Fire Attack	Assume IC, select staging area, give a size up, determine need for fire suppression. Primary responsibility is fire suppression
-----------	---	--

---

1st Grass Rig	Additional Manpower/Tools Fire Suppression	Notify IC when departing station with number of personnel Respond to Staging Area, Fire Suppression
---------------	---	--

---

2nd Grass Ri	Additional Manpower/Tools Fire Suppression	Notify IC when departing station with number of personnel Respond to Staging Area, Fire Suppression
--------------	---	--

### IF STRUCTURES ARE THREATENED ADDITIONAL UNITS WILL RESPOND

---

2nd Truck	Pump Operator Exposures Utilities	Notify IC when departing station with number of personnel. If exposures are threatened and assistance is requested, proceed as directed by IC
-----------	---	--

---

Tanker	Water Supply	Notify IC when departing station with number of personnel. Respond to scene and supply water as directed by IC
--------	--------------	---

## Vehicle Fire (Rural)

1st Truck	Size Up/ Establish Command Fire Attack	Assume IC, give a size up, determine need for fire suppression, Primary Fire Attack, Battery Disconnect
2nd Truck	Pump Operator Back Up Safety Officer	Notify IC when departing station with number of personnel Assist with Primary Fire Attack, establish back up team, and scene safety.

## Auto Extrication(Rural)

1st Truck	Size Up/ Establish Command Extrication	Assume IC, select staging area, give a size up, establish fire protection, stabilize vehicle and start extrication.
Rescue	Additional Tools and Personnel Safety Officer Battery Disconnect	Notify IC when departing station with number of personnel Assist with vehicle stabilization and extrication The Safety Officer will come off this rig.
2nd Truck	Additional Tools and Personnel	Notify IC when departing station with number of personnel Assist with fire protection, vehicle stabilization and extrication.

## Structure Fire (Rural)

1st Truck	Size Up/ Establish Command Fire Attack/Search&Rescue	Assume IC, select staging area, give a size up, determine need for rescue, ventilation, and fire suppression. Primary responsibilities are forcible entry, rescue, and suppression Booster tank will be the primary water source.
2nd Truck	Pump Operator Fire Attack/Search&Rescue Backup Team	Notify IC when departing station with number of personnel Primary responsibilities are assist with forcible entry, rescue, and suppression. Secondary is additional pumping capabilities covering exposures, and ventilation.
Tanker	Water Supply	Notify IC when departing station with number of personnel Primary responsibilities shall be providing water supply and coordinating fill site with station.
3rd Truck	Assist covering exposures Utilities Ventilation Exposures	Notify IC when departing station with number of personnel Primary responsibilities shall be covering exposures, ventilation, and utility shut off.
Rescue	IC Assistant Safety Officer RIT Team	Notify IC when departing station with number of personnel This trucks primary responsibilities will be to provide support to the IC, and to establish a RIT team if not already in place.
