Barn House STORY

ARTICLE BY / DENNIS PURMAN PHOTOGRAPHY BY / STEVE CALE

S hut the door were you born in a barn? The answer, of course, is no, but we do live in one. We own Peaceful Valley LLC, a company that specializes in dismantling and rebuilding antique log cabins and barns into modern day homes.

Three years ago we lived in a Cape with a nice 18 x 20 log cabin attached to it. That home was featured in the Mercantile Gatherings Magazine in 2014. We had also just purchased two barns, one in southern Indiana and the other in western Ohio. We received a call from a couple who were looking at a 1781 log cabin we had built and lived in here in Brown County, Indiana.

The couple did not purchase the log cabin, but they asked if we could build them one. I told him about the barn in southern Indiana, and the following week I took them to look at it. The week thereafter, they called to ask if I would take them back to the cabin again so their friends could see it. This time my wife went along. We pulled up to the barn and I opened the door so all could go inside. As I watched everybody looking around, pointing and suggesting this and that, my wife quietly scans the entire building. As we close the door to our car, she says "you are not selling that barn, I want it!" and so began our adventure of dismantling and rebuilding our wonderful 1850s hand-hewn barn house.

THE GREEN WAY OUTDOORS

KYLE GREEN

Kyle is the "passion" behind The Green Way Outdoors. His goal has always been to leave the planet better than he found it. He believes that The Green Way Outdoors will inspire new sportsmen and women to get involved in conservation efforts and better the Earth. He loves to joke around and experiencing different cultures on the road is his favorite part of the show.

THE TALENT

TGW

THE GREEN WAY OUTDOORS

JEFF HUTCHINSON

Jeff has been Kyle's best friend since the age of 5. He has always been the "humor" of the TV Show. He has extremely quick wit and often says hilarious things out of nowhere. Learning new tactics and teaching people about conservation is his favorite part of the show.

THE TALENT

TGW

THE GREEN WAY OUTDOORS

WHO WE ARE

The Green Way Outdoors is a hunting and fishing educational reality TV show. We produce high quality and hilarious content that is engaging across all demographics and experience levels. Every episode teaches a specific tactic for a specific species and takes you from nature to dinner every episode. The Green Way Outdoors is the ONLY show that educates, inspires, and as a bonus...the laughs are constant. This show is the perfect balance of education, inspiration and entertainment!

TGW

THE GREEN WAY OUTDOORS

PULSED-LIGHT HAIR REMOVAL INFORMATION

HOW DOES IT WORK?
 Pulsed-light hair removal works by pulses of intense light. The light is absorbed by the pigment in the hair and is converted into heat. The heat then destroys the hair follicle responsible for hair growth. Treatment anywhere from 15-60 minutes, depending on the size of the area being treated.

WHAT AREAS CAN I HAVE TREATED?
 Both coarse and fine hair can be treated with our pulsed-light system. However, some pigment is needed to absorb the light. The treatment will not work on white or blond hairs.

IS THE PROCEDURE PAINFUL?
 Most people compare the treatment to a gentle rubberband snap or a brief pinch. The treatment is less painful than conventional hair removal methods such as waxing, plucking and electrolysis.

HOW SOON WILL I SEE RESULTS?
 A reduction in hair growth can be seen even after just one treatment. However, a series of treatments is needed for long-term results. The recommended number of treatments for complete results ranges from two to eight.

Welcome!

Thank you for joining us for our annual Joint Advisory Board Meeting! We appreciate you taking the time from your daily schedule to provide us thoughtful feedback on Marriott's direction, and on our brands. We are excited to have this time together and look forward to it year after year.

On behalf of the conference, we will be making a donation to the American Red Cross. This donation will help our longstanding partner continue to help communities recover and rebuild from disaster, including where Marriott managed and franchised associates are impacted. For years, Marriott has partnered with the Red Cross to respond to natural disasters across the U.S., including the wildfires in Maui, and also helps Marriott support international disasters that impact associates, including the earthquakes in Türkiye/Syria and Morocco, Hurricane Otis in Mexico, and more.

Please enjoy your stay here in Miami, and we look forward to spending time with you over the next few days!

A NOTE FROM YOUR MUSIC DIRECTOR

Welcome to the Elgin Symphony Orchestra's 70th season! I hope all of you had a wonderful summer break and are as excited as I am to get back to the live music-making our ESO musicians provide.

This is my seventh season as your music director and I'm excited to continue to share with you some of the best symphonic music. Highlights this season include familiar titles such as Ravel's Bolero, Mozart's Symphony No. 40, and Rachmaninoff's Rhapsody on a Theme of Paganini; some works you may not recognize by title but will know when you hear them such as Wagner's Siegfried Idyll, Chabrier's Espana, and Liszt's Les Preludes. We also have an amazing line-up of special events including Bravo Broadway, our Holiday concerts, Abbey Road a Tribute to the Beatles, and the much anticipated Mariachi!

We welcome our exciting guest artists, as well as a few new members to our orchestra! <insert new players here>. All played impressive auditions and we are so proud to swell our already artistically strong ranks with their talents.

Thank you for joining us in our 70th season and I hope you enjoy every concert!

STARDUST *pure* SALT

Stardust Pure Salt is an all natural salt with no additives, drawn from a 100% natural deposit. It's perfect for cooking, baking and seasoning. Our Stardust Pure Salt also promotes healthy hydration levels and creates a balance of electrolytes. The sodium in salt helps to control blood pressure and is necessary for nerve and muscle function. We need to eat salt for normal cell function and to maintain the acid balance of the blood.

Use as you would any ordinary table salt for cooking and meal preparation.

STARDUST *hydration* SALT

Electrolytes are necessary for muscle movement and energy. When you exercise, run or play sports, your body eliminates these electrolytes through sweat and diuretic effects. Unless replaced, muscles cramp, fatigue, tire, and tighten. Our Stardust Hydrating Salt helps prevent this by supplementing your body with essential salt to help you recover quickly, maintain muscle stamina and replenish healthy mineral level balance.

Mix one level teaspoon of Hydrating Stardust with one gallon of water and drink one or two glasses per day. Add a squeeze of citrus fruit for added enjoyment.

INGREDIENTS:
Salt, Baking Soda, Stevioside
