## Master Numbers and Their Meanings

Master numbers are double-digit mirror numbers possessing powerful ascended traits. For example: Master Number 11 is also acknowledged as the number 2 and is often seen written as 11/2.

Some numerologist recognize double-digit mirror numbers 11-99 as Master Numbers. However, in this handout we will focus solely on Master Numbers 11, 22, and 33 – the Triangle of Enlightenment.

- 11** Divine intuition, divine inspiration, uplifting, illumination, higher spiritual plane, idealism, divine feminine
- 22** Divinely guided relationships, diplomacy, larger endeavors, architect, methodical, divine masculine

## What Is The Life Trajectory Number?

The life trajectory (life path) number is comprised from your full date of birth. It reveals what path you were contracted to walk on your life journey, as well as give insights to all of the opportunities and challenges you may face along the way.

Your life trajectory number is the most powerful of all the numbers linked to your Numerology Soul Blueprint™. It contains all the essential qualities and traits you need to fulfill your own desires and intentions—helping you to recognize your true self and feel comfortable in being the most authentic version of yourself.

All in all, the life trajectory number illuminates the “who” to your life existence. Some metaphysicians even correlate the life path number with one’s astrological sun sign, highlighting your strengths, weaknesses, true nature, and temperament.

### Calculating Your Life Trajectory Number

To calculate your life trajectory number, first simplify the month, day, and year you were born. Then, add the sum of the numbers together. Lastly, further simplify the gross calculation until you reach a cardinal or master number. Refer to example outlined below.

**Ashley’s date of birth is April 12, 1983**

**April: 4**

**Day: 12 |  $1+2 = 3$**

**Year:  $1+9+8+3 = 21$ , simplified  $2+1 = 3$**

**Sum:  $4+3+3 = 10$ , simplified  $1+0 = 1$**

**Ashley’s Life Trajectory is 1**

**NOTE:** Numerical values for the months of the year are in chronological order in sync with the Gregorian calendar, starting with January being 1 and ending with December being 12/3. Remember to reduce months Oct-Dec when doing your calculations.

*Now, it's your turn...*
