

# Pool Questionnaire & Verification

- If your pool does not hold 24” in depth a Permit or Fence is not required.
- If your pool walls are 48” or more a permit is required.
- If your pool is inground a permit, fence of 48” or hard cover is required.
- If your pool can hold more than 24” of water but less than 48” high, a permit and barrier is required.
- Is your ground flat (Yes) - (No)
- If cutting into a slope or bank there must be 48” of level excavation around the pool perimeter.
- If you install a fence will you be using a portion of the house as part of the barrier (Yes) - (No). If you answer **Yes** an onsite inspection is required prior to installing the fence.
- If you are building a deck at a new pool or an existing one a permit is required.
