Spring Water Quality Report

ASWD's (Alpine Spring Water Distribution) spring water is sourced from the Cobb Mountain spring. It undergoes regular quality testing, the results of which are submitted to the CDPH (California Department of Public Health's) Food & Drug Branch. Our spring water contains only natural Calcium, Magnesium, Sodium and Potassium.

Here is a detailed table of our water testing results:

Component	Test Result
Aluminum	ND
Arsenic	ND
Calcium	5.9
Chloride	ND
Chlorine	ND
Copper	ND
Fluoride	ND
Iron	ND
Lead	ND
Magnesium	2.5
Mercury	ND
Nickel	ND
Potassium	ND
Sodium	4.6
Thallium	ND
Uranium	ND
Zinc	ND
pH Above 7 is Alkaline Below 7 is Acidic	7.6

*ND = Not Detected
