## Redwing Investments LLC

Redwing Investments LLC is a small, privately owned lending company. Our focus is on short term loans for house flippers and rehabbers in the Houston Metro area. Through a network of private business entrepreneurs, we combine IRA and non-IRA funds to form joint ventures and lending partnerships. Our loans are generally asset based, but we also put a heavy emphasis on the character and capacity of our borrowing partners. A strong team culture allows us to work closely together with direct, one on one communication. A strong sense of diligence and financial stewardship, binds our agreements.

We use our principles as a guide for our behavior and for evaluating our partner's character. We prefer relationships where the borrower and lender get to know each other's profile. We have discovered over time that when goals and trust are shared, results and accomplishments follow. Our mission is to minimize risk, diversify investments and help our borrowing partners take advantage of real estate investment opportunities as they occur.
