CFGI

Finance and business advisory for companies and private capital

A specialist provider on the Bymark platform. CFGI brings finance, transaction and transformation expertise to companies, private capital firms and their portfolios. Bymark provides the introduction and coordinates the relationship; CFGI scopes and delivers the specialist advisory work.

What CFGI does

CFGI is a global accounting and business advisory firm supporting the Office of the CFO. Its teams help strengthen reporting and controls, execute transactions, improve finance operations and deliver value creation plans, with interim leadership and managed services available as needs change.

How CFGI supports your business

Strengthen the finance function Improve the close, planning and management reporting; address technical accounting, tax, treasury and controls; add senior finance capacity when needed.

Navigate transactions and exits Support acquisitions, carve-outs and integrations, from due diligence and valuation through purchase accounting, sale preparation and IPO readiness.

Execute portfolio value creation Translate improvement plans into programmes, track financial performance and equip boards and sponsors with clearer reporting on progress.

Connect complementary expertise Bymark helps fund managers, portfolio companies and service providers identify where CFGI can support a client need and brings the relevant specialists into the conversation.
