

HOMEOWNER COMMUNICATION

In order to *facilitate best communication* and *ensure timely response* to requests, questions and concerns, homeowners should extend all communication directly to *the HOAMCO property manager*.

It is appreciated if homeowner requests, questions and concerns are not directed to members of the Board of Directors or vendors working on projects within the Elk Run Townhome Community as they are not charged with the ability to actively address homeowner requests. Direct communication with the community property manager allows for best resolution of homeowner requests and concerns, eliminating miscommunication with others outside of the property management company that provides service to the Elk Run Townhome Community.
