

St. Lucia – Nov. 24-Dec. 1, 2018

Trip overview

Join Tim and Sharon Corcoran on a trip to a truly unique location. See what Caribbean hotels were like before trade winds were replaced by blasts of air conditioning, when morning exercise was a walk on the beach and when you sat watching the sunset instead of cable TV? You can still find that Classic Caribbean at Anse Chastanet Resort on quiet southwestern coast where two magical peaks, the Pitons, leap from the sea and the mountains are covered with luminous greenery. Architect owner Nick Troubetzkoy believes passionately in nature. So, he created a hotel that makes the foliage and the flowers, the perfumes and the peaks, the sea and the bird song an integral part of your vacation experience. The estate encompasses 600 lush tropical acres bordering two soft sand beaches. Not only do you get a World Heritage Site anchored by the twin peaks on land, the resort's two crystal-clear bays are part of a designated marine reserve protecting miles of colorful coral reefs teeming with tropical fish. **This is an excellent location for non-divers with plenty of topside activities and a beautiful beach for just relaxing.**

We have timed this trip to coincide with the moon cycle which may provide the opportunity to view a bio luminescence light show on a night dive. This is something which few divers have experienced.
