Trip overview

Join us on our adventure to the trifecta of dive resorts in Sulawesi Indonesia! These three resorts offer the chance to experience some of the best, most unique and diverse diving in Indonesia. You will experience beautiful hard and soft coral reefs, black water diving and muck diving in Lembeh strait. Blackwater diving is basically a night dive, but a very special one. Rather than cruising along a reef with a torch, blackwater focuses on finding unique creatures in the water column, attracted from the deep by high powered light sources that simulate the moon. Muck diving can be defined as diving sites with sandy or silty bottoms in search of strange-looking tiny creatures, or 'muck critters', found there. Since muck diving was first described, it has gained great popularity with divers, and especially with underwater photographers.
