## Trip overview

Join Tim and Sharon Corcoran on a trip to a truly unique location. See what Caribbean hotels were like when morning exercise was a walk on the beach and when you sat watching the sunset instead of cable TV. You can still find that Classic Caribbean at Anse Chastanet Resort on the quiet southwestern coast of St Lucia, where two magical peaks, the Pitons, leap from the sea, and the mountains are covered with luminous greenery. Architect owner Nick Troubetzkoy believes passionately in nature. He developed a hotel where the natural elements, such as foliage, flowers, scents, landscapes, sea, and bird songs, are incorporated into the vacation experience. The estate encompasses 600 lush tropical acres bordering two soft sandy beaches. Not only do you get a World Heritage Site anchored by the twin peaks on land, but the resort's two crystal-clear bays are part of a designated marine reserve protecting miles of colorful coral reefs teeming with tropical fish. **This is an excellent location for non-divers and divers alike, with plenty of top-side activities and a beautiful beach for just relaxing.**

We have timed this trip to coincide with the moon's cycle, which may allow us to view a bioluminescent light show on a night dive. Few divers have experienced this.
