What:

Our Mission is to gather in AJ's honor for a dog walk. We want to call this "AJ's Heart" because if you knew him, you know how pure and loving he was.

Our Story: Anthony "AJ" Weary was tragically taken from us on October 5, 2022. He went in for routine knee surgery and two weeks later, ended up passing away due to a Pulmonary Embolism after poor medical treatment at a local hospital. AJ had a kind soul and would give anyone the shirt off his back. His big heart and quick wit kept people on their toes, as you never knew what he was going to say next. He has left behind a loving family and amazing friends that want to keep his memory alive.

He is greatly loved and missed so please join us in our walk and our mission. We want to spread awareness to make sure no family goes through what we have.
