

# Super Bowl Party MOODBOARD

Before we even talk food (because... snacks 😊), let's set the vibe. Super Bowl decor doesn't have to scream "man cave" to feel festive. This year, I'm all about football-inspired details that are elevated, fun, and totally Instagram-worthy...perfect for hosting the girls and the guys. (Click on the photos for links to the items.)

## Chip & Dip "Stadium" Server:

Functional and cute? Yes, please. This is the kind of piece that becomes a conversation starter — and honestly, it makes basic chips and dip feel like a full experience.

## Wooden Football Centerpieces:

Layered wood decor is one of my favorite tricks for adding height and texture to tables. They give that cozy-but-festive feel that works all season long.

## Football-Themed Bows:

They soften the football theme and instantly make the space feel styled, not cluttered.

## Super Bowl Squares Poster:

Decor that doubles as an activity is always a win.

## Sparkly Football Tumbler:

This is where Huddles & Heels shines. Football, but make it glam.

## Artificial Grass Table Runner:

This is such an underrated decor piece. It instantly says football, but still looks clean and intentional.

## Football-Shaped Drink Dispenser:

It's eye-catching without being cheesy and keeps people out of your kitchen all night (hostess win).

## Football Mason Jar Centerpieces:

They're versatile, reusable, and add just the right amount of football flair to any surface.
