Shape the Future of
Technology in SVUSD

The Community Tech Forward Task Force (TF2), is an innovative initiative to guide responsible technology use across our district and the community. We are bringing together diverse voices to shape the future of learning in SVUSD, with a special focus on AI integration.

by Dr. Brandee Ramirez

AI & INTERNSHIPS

*New Opportunity for INDUSTRY PARTNERS

Internships and work-based learning help students connect classroom learning to real-world experiences, develop professional skills, and explore career choices, ultimately providing them with valuable insight and increased self confidence about their future.

The Science of Learning Using Technology Effectively to Impact Learning Outcomes

Personalized, tech-enabled solutions can dramatically impact children's learning outcomes, and technology gives us the ability us to create vastness in a small physical space to do so. As an industry, it is important to draw from learning and behavioral science to...
