1. INTRODUCTION:

1.1. Purpose

- 1.1.1. *The Fédération Internationale de Sports d'Obstacles (FISO) is the sole governing body, responsible for Competition Rules for Obstacle Racing (the "Rules") and its related sports. The disciplines and events under the jurisdiction of FISO are included on the World Obstacle website as updated from time to time.*
- 1.1.2. *The Fédération Internationale de Sport d'Obstacles Competitions Committee (CC) will ensure technical aspects of FISO competitions are of the highest quality.*
- 1.1.3. *The Rules specify the conduct and behaviour of athletes during FISO competitions.*
- 1.1.4. *The FISO Event Host Agreement and its related documents set safety, organizational, and logistical standards for event organizers, which may include the National Federation (NF) and their Local Organizing Committees (LOCs).*
- 1.1.5. *The FISO Officials Certification Program sets the standards for certifying FISO Technical Officials (TOs).*

1.2. Intention

- 1.2.1. *The Rules are intended to provide a flexible framework to:*
 - 1.2.1.1. *Create an atmosphere of sportsmanship, equality, and fair play*
 - 1.2.1.2. *Provide safety and protection*
 - 1.2.1.3. *Emphasize ingenuity and skill without unduly limiting the athlete's freedom of action*
 - 1.2.1.4. *Penalize athletes who gain an unfair advantage*
 - 1.2.1.5. *Facilitate the smooth flow and enjoyment of competitions*
- 1.2.2. *Definitions of all terms used in The Rules are provided in Appendix A. Any difficulty in the interpretation or application of Rules should be referred to the CC.*

1.3. Language and Communication

- 1.3.1. *The official language of FISO Events is English.*
 - 1.3.1.1. *NFs are responsible for providing translation services from/to English for their own athletes*
 - 1.3.1.2. *LOCs will communicate at least in English, even if another language is used in parallel.*

1.4. Modifications

- 1.4.1.1. *The Rules will be adapted for related sports competitions, which fall within FISO's jurisdiction.*
- 1.4.1.2. *An athlete shall not be permitted an advantage not intended by a rule, or to conduct him/herself in a dangerous way. To implement this, infringements related in The Rules have a sanction attached. Officials base their judgments on whether an advantage, not intended by the Rules, has been gained.*

- 1.4.1.3. *FISO Competition Rules will be applicable to international competitions hosted by National Federations (NFs) affiliated with FISO.*

1.5. Exceptions

- 1.5.1. *The Rules will be applicable to all events sanctioned by FISO and are to be implemented by the appointed Technical Delegate (TD) or Senior Technical Delegate as appropriate. Where the Rules conflict with the laws of the jurisdiction in which the event is to be held, The Rules will override the laws of the jurisdiction to the extent of the inconsistency.*
- 1.5.2. *Athletes must be notified of the implications of these laws as early as practical and no later than the start of the event.*
- 1.5.3. *Exceptions for special circumstances in a particular event may only be granted by FISO with prior approval. A request for an exception to The Rules must be made in writing to the CC through the NF to whom the application has been submitted or is being submitted.*

1.6. Specific Regulations

- 1.6.1. *A RD may approve the addition of specific regulations for a particular race, provided that:*
- 1.6.1.1. *Each additional specific regulation does not conflict with another FISO Competition Rule*
 - 1.6.1.2. *Each additional specific regulation is made available in written form and is announced at the athletes' briefing; and*
 - 1.6.1.3. *Each additional specific regulation and the reasons for its inclusion are advised to the CC one week before the day on which the event is to be conducted. The CC may invalidate the incorporation of an additional specific regulation only on the authority of the FISO Executive Board.*

1.7. Intellectual Property

- 1.7.1. *FISO Events are the exclusive property of FISO, which owns all rights associated including, without limitation, the rights to organize, exploit, broadcast and reproduce FISO Events. These rights include any type of digital or analogue media, whether that is photographic or video in nature, captured from within the boundaries of the field of play, regardless of ownership of the capturing device. All the personal data from the athlete entered into any FISO event and the data produced from the event, including the results are exclusive property of FISO.*
- 1.7.2. *Prior to competing in World Cups or FISO World Series events and related Championships, Youth, Junior, Senior, Masters, and Adaptive-athletes must adhere to the FISO Athletes' Agreement, which states that any dispute arising from the FISO Rules that cannot be settled by its appeal procedure, shall be settled finally by the Court of Arbitration for Sport (CAS) in Lausanne, Switzerland, to the exclusion of recourse to ordinary courts. Once agreed, the FISO Athletes' Agreement is valid until the end of that competition year.*

1.8. Unauthorized Exceptions or Additions

The unauthorized exception to, or addition of a Competition Rule will prevent an event from being sanctioned and will invalidate a sanction, which has already been granted to an event. This could result in legal complications, particularly in the case of accidents during the event and in subsequent requests for approval from NFs and/or municipal authorities to use land or property under their jurisdiction.

Insurance authorities have also warned that claims made under such circumstances may be considered invalid.

1.9. Rule Updates

The Rules may be changed from time to time by the CD or RD at its discretion, with the approval of the FISO Executive Board. Any such rule change(s) shall be advised in writing to affiliated NFs prior to the applicable event before taking effect. Updated FISO Competition Rules will be posted on the FISO website (worldobstacle.org).

3. PENALTIES AND RULES

3.1. General Rules – Cross Country

An honest attempt means the athlete fail the obstacle whilst putting significant effort into completing it. Specifically, an athlete must apply their full body weight to the obstacle and fail due to lack of strength or fatigue.
 - 3.1.2. Athletes cannot “touch and go” or intentionally miss or fail the obstacle. Doing so may result in DNC or DSQ depending on circumstance.
 - 3.1.3. An athlete failing an obstacle must complete an obstacle penalty. Failure to complete the obstacle or penalty will result in DSQ.
 - 3.1.4. A penalty shall be an athletic task “penalty loop” that is commensurate in time and effort to completing a representative obstacle such as a run loop, a run loop carrying a weight, a lunge loop, another obstacle, or other athletic task that is no less in time and effort than it takes to complete a representative obstacle from start to finish.
- NOTE:** In general, a penalty shall be placed in view of the finish line. It shall be at least 50% longer/harder than the longest/hardest obstacle in the race but less than 100% harder/longer.
- 3.1.5. Time limited obstacles such as Laser Shooting, shall not include a penalty. If an athlete times out, the time is the penalty.
 - 3.1.6. Athletes shall start the race with a pre-determined number of wrist bands. If an athlete fails an obstacle a wrist band shall be cut and removed from the athlete’s wrist.
 - 3.1.7. If an athlete has had all three wristbands removed, they shall be ranked Did Not Complete (DNC.)
 - 3.1.8. An athlete designated DNC may be awarded a finish time but cannot be place above an athlete who completes the course and has not failed three or more obstacles. Athletes with DNC cannot be ranked but a time may be shown in the results.

NOTE: The final obstacle should be challenging, visually appealing for spectators and with a

reasonable chance of failure for proficient athletes. This encourages athletes to have at least two (2) bands at the final obstacle. If they have one (1) band, they would not be allowed to complete the race if they fail the final obstacle.

3.1.9. Athletes shall receive one wrist band for each penalty loop completed.

3.1.10. All athletes arriving at the finish line with three wrist bands shall be included in the official rankings.

3.1.11. Athletes finishing with the same time to within 1/100 (0.01) seconds shall be awarded a tie.

NOTE: *The time penalty for failing an obstacle is the time taken to cut the wrist band, plus the time to do the penalty loop, plus the time to replace the wrist band.*

3.1.12. Any athlete who is lapped on a multi-lap course must immediately leave the racecourse and will be DSQ.

3.1.13. Failure to comply with the competition rules may result in an athlete being verbally warned, subject to an athletic penalty, disqualified, suspended, or expelled.

3.1.14. The nature of the rule violation will determine the subsequent penalty.

3.1.15. A suspension or an expulsion will occur for very serious violations of either The Rules or FISO Anti-Doping Rules.

3.2.5. Additional equipment is prohibited, for example wheels, tow lines, hiking poles, etc.

3.2.6. Assisting team member(s) must adhere to the obstacle rules, e.g. they cannot assist from the ground if the obstacle rule prohibits touching the ground, e.g. rings, monkey bars, etc.

3.2.7. If any team member fails an obstacle the entire team must complete a penalty.

3.2.8. If any team member cannot finish the race, the entire team is ranked DNF.

3.2.9. The finish time for the team is the last person across the line.

3.3. Verbal Warning

This report will be submitted to the FISO Secretary General within one week of the competition. The FISO Secretary General will inform the affected NFs.

3.6.3. The FISO EB may assess suspensions for periods of three (3) months to four (4) years, depending on the violation

8. COMPETITION IN QUALIFYING ROUND FORMAT

8.1. General

A competition in Qualifying Round Format consists of several rounds with several heats and a final to determine the winner. Athletes qualify for the final based on time. The fastest 16 athletes proceed to the final.

8.2. Rounds

8.2.1. *The rounds will be called heats and final.*

8.2.2. *A competition will have two rounds. Round one is the heats and round two is the final.*

8.2.3. *The number of athletes in a race is determined by the number of lanes or the width of the course. In general, there are two (2) and up to eight (8) lanes if not mass start.*

8.2.4. *For example, races with 8 lanes, heats and final will have 16 athletes per race as a maximum. In this example, the number of heats will be determined by the total number of athletes divided by 16 plus 1 if the result is > a whole number (discard the digits after the decimal point.)*

8.2.5. *There are 16 athletes in each heat unless there the total number of athletes divided by 16 is not a whole number. In this case, two heats will have a smaller number of athletes distributed evenly between them +/- 1.*

8.2.6. *Examples*

- *17 athletes entered, then $17 / 16 = 1.06$ (discard .06 and add 1) = 2 heats. One heat of 8 and one heat of 9. 16 fastest proceed to final.*
- *32 athletes: $32 / 16 = 2$ (who number) = 2 heats, each with 16 athletes, 16 fastest proceed to final.*
- *345 athletes: $345 / 16 = 21.56$ (discard .56 and add 1) = 21 heats. 20 heats of 16 (320 athletes), one heat of 12 and one heat of 13 (25 athletes)*

8.3. Distribution of athletes in the semi-finals

The RD will compose the heats as follows:

8.3.1. *If there are not any applicable rankings, the athletes will be distributed among the heats to have the same number of athletes per semi-final (some semi-finals can have one more athlete than others). The athletes from the same NF will be distributed among the heats following the same principle.*

8.3.2. *If a ranking is applicable, the ranked athletes will be distributed according to the chart below and the non-ranked athletes will fill the remaining spots by applying the principle of assigning a similar number of athletes from the same NF to every heat and keeping all the heats of equal size.*

8.4. Numbering

The numbers in the final will be assigned as first criteria according to finishing time in the heats (fastest has number 1, slowest has number 16). The second criteria will be the FISO points list position, and the third a random apportionment.

8.5. Results

The overall results for the event will be the results of the final round.

If the event is included in any ranking which is allocating points to more positions than finishers in the final, the remaining points will be awarded as follows:

8.5.1. To the DNF athletes in the final, according to their times in the heats

8.5.2. To the DNS athletes in the final according to their times in the heats,

8.5.3. To the athletes who did not qualify to the final, according to their times in the heats.

8.5.4. DSQ athletes will not earn any points.

9. Adaptive-Obstacle

9.1. General:

9.1.1. Adaptive-Obstacle, as per the FISO Constitution, is governed by the FISO Competition Rules. This section contains the rules which affect only Adaptive-Obstacle.

9.1.2. Adaptive-Obstacle Sport Classes (categories):

9.1.2.1. FISO Adaptive-Obstacle has implemented an evidence-based classification system to group impairments into sport classes according to the extent of activity limitation they cause the athlete when performing in the sport of Adaptive-Obstacle.

9.1.2.2. The recognised types of impairment by the FISO are:

<i>Impairment Type</i>	<i>Examples of Health Conditions that may cause impairment</i>
<i>Impaired muscle power</i>	<i>Spinal cord injury, muscular dystrophy, brachial plexus injury, Erbs palsy, polio, spina bifida, Guillian – Barre syndrome.</i>

<i>Impaired passive range of movement</i>	<i>Ankylosis, arthrogyrosis, post burns joint contractures. Does not include hypermobility of joints.</i>
<i>Limb deficiency</i>	<i>Amputation resulting from trauma or congenital limb deficiency (dysmelia).</i>
<i>Hypertonia</i>	<i>Cerebral palsy, brain injury, stroke, multiple sclerosis.</i>
<i>Ataxia</i>	<i>Cerebral palsy, brain injury, multiple sclerosis, Friedrichs ataxia, spincerebellar ataxia.</i>
<i>Athetosis</i>	<i>Cerebral palsy, stroke, brain injury.</i>
<i>Vision Impairment</i>	<i>Myopia, tunnel vision, scotoma, retinitis pigmentosa, glaucoma, macular degeneration, congenital cataract.</i>

9.1.2..3. General description of Obstacle Sport Classes

In Adaptive-Obstacle (PO) there are four (4) different sport classes for athletes with physical impairment, numbered 1-4 and one (1) sport class for athletes with vision impairment.

Each sport class is for athletes with similar impairment types and severity, so the impact of impairment on the performance within one class is similar.

Athletes are assessed through physical and technical assessments using a point system and a weighing factor for each component of the sport (grip strength, agility, mobility, core strength, running, etc.) The total score determines the athlete's sport class.

PO1 (Wheelchair) *Athletes compete in a racing wheelchair for the run section and are standard obstacles are modified to facilitate completion using only upper body strength. This class includes athletes with, but not limited to, impairments of muscle power, range of movement, limb deficiency such as unilateral or double leg amputation, spinal cord injuries resulting in paraplegia or tetraplegia, etc.*

PO2-4 (Ambulant) *Athletes run with or without the use of an approved prosthesis and/or supportive devices and fall into one of three (3) different classes. These sport classes include but are not limited to Athletes with impairment of muscle power, range of movement, limb deficiency, hypertonia, ataxia, athetosis.*

PO2 *Athletes with a severe degree of activity limitation such as, but not limited to, unilateral above knee amputees, double below knee amputee, athletes with a significant combined upper and lower limb muscle power limitation or severe neurological impairment such as congenital hemiplegia, severe cerebral palsy, etc.*

PO3 *Athletes with a moderate degree of activity limitation such as a through the shoulder amputation, complete loss of range of motion in one arm, a moderate combined upper and lower limb loss of muscle power or moderate neurological impairments such as ataxia or athetosis.*

POT4 Athletes with a mild degree of activity limitation such as a below the elbow arm amputation, below the knee amputation, partial loss of arm muscle power, lower limb deficiency or mild neurological impairments such as ataxia or athetosis.

PO5 (Visual Impairment). Athletes run and complete obstacles with a guide.

9.1.2..4. The five sport classes are defined as follows:

- PO1 - Wheelchair users. Includes athletes with comparable activity limitation and an impairment of, but not limited to muscle power, limb deficiency, hypertonia, ataxia, athetosis that prevent the ability to run. Through classification assessment, athletes must have a score of up to 640.0 points.*
- PO2 - Includes athletes with comparable activity limitation and an impairment of, but not limited to, limb deficiency, hypertonia, ataxia and or athetosis, impaired muscle power or range of movement that through classification assessment have a score of up to 454.9 points. Amputee athletes may use approved prosthesis or other supportive devices.*
- PO3- Includes athletes with comparable activity limitation and an impairment of, but not limited to, limb deficiency, hypertonia, ataxia and or athetosis, impaired muscle power or range of movement that through classification assessment have a score from 455.0 to 494.9 points. The athlete may use approved prosthesis or other supportive devices.*
- PO4 - Includes athletes with comparable activity limitation and an impairment of, but not limited to, limb deficiency, hypertonia, ataxia and or athetosis, impaired muscle power or range of movement that through classification assessment have a score from 495.0 to 557.0 points included. The athlete may use approved prosthesis or other supportive devices.*
- PO5 - Total or Partial visual Impairment (IBSA/IPC defined sub-classes B1, B2, and B3): Includes athletes who are totally blind, from no light perception in either eye, to some light perception but unable to recognize the shape of a hand at any distance or in any direction (B1) and partially sighted athletes with a visual acuity of less than 6/60 vision or visual field less than 20 degrees with best corrective vision (B2-B3). One guide is mandatory throughout the race.*

9.2. Classification:

- 9.2.1. All Adaptive athletes competing at a FISO sanctioned competition must have an international classification to ensure they meet the minimal eligibility criteria for competition and are assigned an appropriate sport class. Adaptive athletes requiring classification will need to:*

- *be available to attend an International Classification appointment with an FISO designated Classification Panel prior to the competition.*
- *provide, at time of classification, the “FISO PI Medical Diagnostics Form” or “FISO VI Medical Diagnostics Form” signed by the appropriate medical personnel, a passport sized photo and any other relevant medical documentation.*

9.2.2. *Adaptive athletes competing at an FISO event, where classification is not available, will be required to submit specific medical documentation to FISO, no later than 4 weeks before competition, so that a provisional classification can be assigned to them.*

9.2.3. *When an athlete’s sport class changes, a revision of the past results can be requested. FISO will evaluate each request on a case-to-case basis and decide whether the relevant race results need to be modified.*

9.3. Eligible classes and Race formats

9.3.1. *Adaptive athletes may start all together or grouped in waves.*

9.3.2. *At the discretion of the technical delegate a competition format may be changed to meet the needs of the Adaptive athletes competing.*

9.4. Adaptive athletes’ briefing:

9.4.1. *A compulsory briefing of Adaptive athletes will be held before all FISO events and will be conducted by the FISO TD. Adaptive-Obstacle coaches may also attend the briefing.*

- *Adaptive athletes not attending the briefing without informing the RD of their absence, may be removed from the start list.*
- *Adaptive athletes must notify registration official(s) of their presence upon entering the briefing room.*

9.4.2. *All guides and personal handlers must be registered at the briefing.*

9.4.3. *All Adaptive athletes will pick up their own race packet following the briefing. The race packet will include:*

- *P1: 1 race number sticker for each prosthesis/aiding devices, 1 official race number for the athlete and 2 official race numbers for the personal handlers.*
- *P2, P3 and P4; 1 race number sticker for each prosthesis/aiding devices, 1 official race number for the athlete and 1 official race number for the personal handler.*

- P5: 1 official race number for the athlete and 1 official race number for the guide with the word "GUIDE" written on it.

9.5. Adaptive-Obstacle Personal Handlers
