

Get Ready for the OCR World Championships in Gothenburg 2025!

The start lists for the upcoming OCR World Championships in Gothenburg 2025 will be based on a ranking. This ensures that the top athletes compete in the same heats, with the first athlete to cross the finish line crowned the winner. The ranking system has been successfully used in previous national and international championships.

Currently, the ranking list includes over 5,000 athletes and 13,000+ race results. To make the rankings even more accurate, we're now accepting submissions of race results from key national events held during the past season.

How to Submit Race Results

Please send an Excel or CSV file for each race with the following details for each competitor:

- First Name
- Last Name
- Gender
- Date of Birth (or birth year)
- Club (optional)
- Nationality
- Finish Time

Submit your files to: ranking@ocrunner.com.

Race organizers are also welcome to submit results directly.

Note: Only results from 2024 and 2025 that meet FISO regulations will be accepted.

When registering, it is requested to provide an athlete ID, which can be found or created on ocrarena.com. If your NF has a national license number or equivalent, you can use that instead. In that case, we ask that the NF sends a list with license numbers, names, and birth years (club: optional) so that we can verify that the correct national license numbers are provided.

Why Your Submission Matters

By sharing race results, you help ensure that athletes from your country are accurately and fairly ranked.

We appreciate your support in keeping the OCR World Championships fair and competitive. For any questions, feel free to contact us at ranking@ocrunner.com.

Disclaimer

By submitting race results, you consent to the use of this information for creating the official ranking for the OCR World Championships 2025. The data will only be used for this purpose and will not be shared outside the OCR World Championships organization.
