For Immediate Release

Jules Hope Chest received Grant from Washington Trust Foundation

We at Jules Hope Chest were proud to receive a \$1000.00 Grant from Washington Trust in honor of their employee Rodrigo N. DaSilva the recipient of the 2022 Community Service Award. This award is a companywide honor and Mr. DaSilva chose our non-profit organization to bless with this grant as recognition for the work we do throughout the community. Awards like this help our non-profit continue to do the work of our mission.

Jules Hope Chest is a non-profit organization that was established to provide the extra hope and enhancement of items and programs that are truly essentials of childhood. They are the items that are easily cut from budgets but we are making them our priority to allow children to just be kids and not have to worry about the needs and essentials for their childhood. We are committed to helping the most vulnerable at need children in the state of Rhode Island by providing opportunities and resources that they may otherwise not experience.

This is a great opportunity to support our mission. To find out more information about our non-profit organization visit us at www.juleshopechest.org or visit our social media accounts on Facebook, Twitter, Instagram and You-tube.
