

Corporate

A new study has found that the average desk is 400 times more contaminated than a lavatory seat.

One of the filthiest areas is the desk surface, where 20,961 invisible microbes can live and breathe on every square inch. The average lavatory seat contains just 49 germs per square inch.

The study noted that other unclean areas are water fountain handles and microwave door handles.

In a recent test against MRSA, UK university professors stated that:

"Resysten system is one of the most active protective coatings that we have tested in over 20 years of university research."

Dr. Patrick Dunlop, University Ulster UK

The invisible disinfectant protective coating

By using Resysten® hygienic protective coating technology, you ensure inhabitable conditions for biological contaminants on any treated surface to survive.

Effective up to 12 months

- + Continuous disinfection
- + Reduces labour costs
- + Ensures employee efficiency
- + Prevents chemical waste
- + Provides sustainable work practices
- + UV stable

Lab tested and client proven results

- + Third party broad-spectrum testing
- + GLP labs tested
- + SGS/EUROFINS Lab tested
- + University lab tested
- + EU Biocidal Products Regulation compliant

ANTI-VIRAL

Proven to kill (GLP lab tested) SARs CoV1, SARs CoV2, Ebola, HBV, HCV, MERS, HIV, MVA, PRV

ANTI-MICROBIAL

Proven to kill (GLP lab tested) hospital superbugs, MRSA, Clostridium difficile, and deadly bacteria Listeria monocytogenes, Escherichia coli, Salmonella, Pseudomonas aeruginosa, Enterococcus hirae, Staphylococcus aureus.

ANTI-FUNGI, ANTI-MOLD

Prevents (GLP Lab tested) moulds and fungi such Candida albicans, and Aspergillus brasiliensis from growing.

ANTI-ODOR

Resysten has a direct impact on the odors omitted from public toilets, paints, building materials, cosmetics, smoking, fabrics and more.

With Resysten you can...

...LOWER THE RISK OF INFECTIONS

Ensure staff do not fall victim to flu and COVID-19 outbreaks at the workplace.

...BE AHEAD OF COMPETITION

Reputational advantage, proactive company policies, office health safety

...BE COST EFFECTIVE

One time application, up to 12 months effectiveness

...BE MORE SUSTAINABLE

Less chemicals sprayed, less CO₂ due to less shipping, less plastic container usage.

Working solution

Resysten has been implemented with tremendous success to improve food production hygiene; our impressive list of clients, and on-site results is why leading food and retail producers are adopting Resysten within their hygiene routine.
